11 contrary, an out-of-state physician holding a license issued by the
12 applicable licensing agency of another state may practice medicine on a
13 limited basis in this state during certain sporting events, if such physician
14 receives a sports waiver issued by the state board of healing arts. The
15 board shall issue such a waiver within 15 days after receipt of a complete
16 application if the physician:

17 (1) Submits a complete application in the manner determined by the
18 board;

19 (2) holds an unrestricted license to practice medicine and surgery in
20 another state and is not the subject of any investigation or disciplinary
21 action by any applicable licensing agency;

22 (3) has professional liability coverage for the duration of the sporting
23 event that meets the minimum level of coverage required to practice in
24 Kansas; and

25 (4) meets at least one of the following qualifications:

26 (A) The physician has entered into a written agreement with a sports
27 team to provide medical care to team members and coaching staff
28 traveling with the team for a specific sporting event to take place in this
29 state;

30 (B) the physician has been invited by a national sport governing body
31 to provide healthcare services to team members and coaching staff at a
32 national sport training center in this state; or

33 (C) the physician has been invited by a national sport governing
34 body to provide healthcare services at an event or competition in this state
35 that is sanctioned by a national sport governing body.

36 (b) Any individual practicing under a sports waiver issued by the

1 board shall be limited to:

2 (1) The scope of practice defined by Kansas law for such healthcare
3 profession; and

4 (2) such healthcare services required under the written agreement
5 either with a sports team for team members and coaching staff or
6 healthcare services that are required by the national sport governing body.

7 (c) Any individual practicing pursuant to a sports waiver under the
8 provisions of this section shall be subject to all rules and regulations
9 relating to the practice of the licensed profession in this state and shall be
10 considered a licensee for the purposes of the provisions of law
11 administered by the board.

12 (d) (1) A sports waiver issued under this section shall be valid for the
13 time certified by the healthcare professional or national sports governing
14 body for each respective sporting event, except that no waiver shall be
15 valid for longer than 30 days.

16 (2) An individual shall not be issued more than five sports waivers in
17 a calendar year, unless otherwise approved by the board for an
18 extenuating, unforeseen circumstance.

19 (e) Nothing in this section shall be construed to permit a physician
20 issued a sports waiver under the provisions of this section to:

21 (1) Provide healthcare services or consultation to any individual
22 residing in this state, other than individuals described in subsection (a); or

23 (2) practice the individual's healthcare profession at a licensed
24 healthcare facility in this state.

25 (f) Any individual issued a sports waiver or out-of-state sports team
26 receiving services from such individual shall report to the board any
27 potential violation of the healing arts act or other applicable practice act,
28 including, but not limited to, professional incompetence or unprofessional
29 conduct.

30 (g) Nothing in this section shall be construed to prohibit the board
31 from denying an application for a sports waiver under this section if the
32 board determines that the individual does not meet technical qualifications
33 or granting the application may endanger the health and safety of the
34 public.

35 (h) The board may enter into agreements with the medical and
36 osteopathic licensing boards of other states to implement the provisions of
37 this act. Agreements may include, but not be limited to, procedures for
38 reporting potential medical license violations.

39 (i) (1) The board may adopt rules and regulations necessary to
40 implement the provisions of this section, including, but not limited to,
41 procedures for reporting potential medical violations.

42 (2) Consistent with this section, the board may adopt procedures to
