

We are a USDA - State License Kennel. We are against this bill as this will put a great burden on us.

The State has no money - and we cannot afford to pay these high License fees to operate this program and put us all out of business. We certainly don't need anymore rules & regulations. The program will duplicate the USDA and all this will go on the internet also. Please help us out on this - we take good care of our puppies and dogs.

Thank You
