

March 6, 2017

The Honorable Caryn Tyson, Chairperson
 Senate Committee on Assessment and Taxation
 Statehouse, Room 123-E
 Topeka, Kansas 66612

Dear Senator Tyson:

SUBJECT: Fiscal Note for SB 192 by Senate Committee on Assessment and Taxation

In accordance with KSA 75-3715a, the following fiscal note concerning SB 192 is respectfully submitted to your committee.

Under current law, individual income tax rates are set at 2.7 percent for income under \$15,000 (\$30,000 for married filing jointly) and at 4.6 percent for income \$15,000 and over (\$30,000 for married filing jointly) in tax year 2017, and the bottom rate is set to be lowered to 2.6 percent beginning in tax year 2018. SB 192 would create a three bracket income tax beginning in tax year 2017 and in all future tax years. The individual income tax rates would be set at 2.7 percent for income under \$15,000 (\$30,000 for married filing jointly), 4.6 percent for income between \$15,000 and \$35,000 (between \$30,000 and \$70,000 for married filing jointly), and 6.1 percent for income \$35,000 and over (\$70,000 for married filing jointly). The bill would eliminate the automatic income tax rate reduction procedure that has the potential to reduce individual income tax rates beginning in tax year 2021. The bill would also allow taxpayers to claim 100.0 percent of the total amount of medical care expenses as an itemized deduction.

Calculations for Kansas income taxes are based on the Kansas adjusted gross income, which is calculated by adding or subtracting certain types of income from the federal adjusted gross income. The bill would require non-wage business income to be included as income for Kansas income tax purposes beginning in tax year 2017. The bill would also allow all non-wage business losses to be claimed for Kansas income tax purposes. The bill would prohibit any penalties or interest from the underpayment of taxes from the tax rate changes and from calculating non-wage business income in tax year 2017, as long as the taxes are paid by April 15, 2018.

Estimated State Fiscal Effect				
	FY 2018 SGF	FY 2018 All Funds	FY 2019 SGF	FY 2019 All Funds
Revenue	\$578,500,000	\$578,500,000	\$440,500,000	\$440,500,000
Expenditure	\$88,424	\$88,424	--	--
FTE Pos.	--	--	--	--

The Honorable Caryn Tyson, Chairperson

March 6, 2017

Page 2—SB 192

The Department of Revenue estimates that SB 192 would increase State General Fund revenues by \$578.5 million in FY 2018 and by \$440.5 million in FY 2019. The fiscal effect to state revenues during subsequent years would be as follows:

	<u>FY 2020</u>	<u>FY 2021</u>	<u>FY 2022</u>
State General Fund	\$445,300,000	\$450,100,000	\$455,100,000

The Department of Revenue indicates that State General Fund estimates for FY 2018 and FY 2019 are based on the November 2016 Consensus Revenue Estimate. State General Fund revenues in the out years assume a 1.0 percent annual growth rate. The bill is retroactive and the fiscal effect is based on adjusting the income tax rates, taxing non-wage business income, and allowing itemized deduction on medical care expenses beginning on January 1, 2017. The estimate for FY 2018 includes 100.0 percent of tax year 2017 tax liability and 30.0 percent of tax year 2018 tax liability. The estimate for FY 2019 includes 70.0 percent of tax year 2018 tax liability and 30.0 percent of tax year 2019 tax liability.

The Department indicates that the bill would require \$88,424 from the State General Fund in FY 2018 to implement the bill and to modify the automated tax system. The required programming for this bill by itself would be performed by existing staff of the Department of Revenue. However, if the combined effect of implementing this bill and other enacted legislation exceeds the Department's programming resources, or if the time for implementing the changes is too short, additional expenditures for outside contract programmer services beyond the Department's current budget may be required.

The Department of Administration indicates that adjusting state income tax collections has the potential to have a fiscal effect on the amount of revenue collected from its debt setoff program. This program intercepts individual income tax refunds and homestead tax refunds and applies those amounts to debts owed to state agencies, municipalities, district courts, and state agencies in other states. Debts include, but are not limited to child support, taxes, educational expenses, fines, services provided to the debtor, and court ordered restitution. As the dollar amounts of refunds are decreased, the amount available for possible debt setoffs is also reduced. However, the Department is unable to make an estimate of the amount of debts setoffs that will no longer be intercepted as a result of the bill. Any fiscal effect associated with SB 192 is not reflected in *The FY 2018 Governor's Budget Report*.

Sincerely,

Shawn Sullivan,
Director of the Budget
