

February 8, 2021

The Honorable Caryn Tyson, Chairperson  
Senate Committee on Assessment and Taxation  
Statehouse, Room 123-E  
Topeka, Kansas 66612

Dear Senator Tyson:

**SUBJECT:** Fiscal Note for SB 87 by Senate Committee on Assessment and Taxation

In accordance with KSA 75-3715a, the following fiscal note concerning SB 87 is respectfully submitted to your committee.

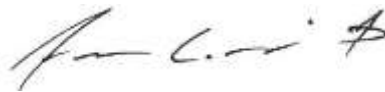

SB 87 would discontinue the apportionment of the countywide sales tax for general purposes to cities beginning on July 1, 2021. All countywide sales tax revenue for general purposes would now be retained by the board of county commissioners. However, the bill would not prevent a board of county commissioners from entering into interlocal agreements to share a portion of the countywide sales tax revenue with any city located in that county. The bill would not apply to tax increment revenues pledged to STAR bond repayments pledged prior to July 1, 2021.

The Department of Revenue indicates SB 87 would affect the countywide sales tax distribution for 80 counties which would impact 474 cities. The bill would have no fiscal effect on state sales tax revenue. The Department indicates that the bill would require \$1,453 from the State General Fund in FY 2022 to notify local governments about the proposed changes to the countywide sales tax distribution. The costs for programming changes to adjust county sales tax distributions are estimated to be negligible and could be absorbed within existing resources.

The Kansas Association of Counties indicates the bill would allow for county flexibility in distributing revenue generated by the countywide sales tax for general purposes and promotes interlocal agreements instead of state oversight of apportionment of county funds. The Association assumes that while this bill would not increase or decrease local government revenue, it could allow county governments to apportion funds as deemed necessary. The League of Kansas Municipalities indicates the bill has the potential to significantly reduce countywide sales tax distributions to cities that are currently used in part to finance city governments. The League

indicates that there were \$271.1 million in distributions to cities from the countywide sales tax for general purposes in calendar year 2020. For example, the League indicates that without an interlocal agreement in place, the City of Wichita has the potential to lose approximately \$62.5 million in countywide sales tax distributions in FY 2022, which would now be retained by Sedgwick County under the provisions of the bill. Any fiscal effect associated with SB 87 is not reflected in *The FY 2022 Governor's Budget Report*.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Proffitt", with a stylized flourish at the end.

Adam Proffitt  
Director of the Budget
