

**Neutral Testimony on HB 2148**  
**House Transportation Committee**  
February 7, 2023

Chair Francis and Members of the Committee,

Thank you for the opportunity to appear before you on behalf of the Kansas Contractors Association (KCA). The KCA represents more than 200 companies working in Kansas' heavy construction industry. Collectively, these companies create and sustain thousands of good-paying, private sector jobs across our state.

The KCA applauds the Kansas Legislature and their work on the Eisenhower Legacy Transportation Program during the 2020 session. The IKE plan helped keep the Kansas economy moving forward during the start of the covid pandemic. The construction industry never stopped working and continued to invest in the Kansas economy.

I am not here today to speak on the merits of HB 2148 but to ask you to remove the language on page 28, lines 20-22 that would strike the \$4 vehicle modernization surcharge. The vehicle modernization surcharge raises approximately \$12-\$13 million for the State Highway Fund each year.

***Ordinary Transfers rise even as Extraordinary Transfers were eliminated***

The KCA would like to thank the Kansas Legislature and the Governor for stopping the extra ordinary transfers from the state highway fund last year. You will see from the table attached to my testimony, as the extraordinary transfers have been eliminated, the ordinary transfers have increased over the last two fiscal years from \$108 million in FY '21 to over \$120 million in FY '23. The vehicle modernization surcharge helps offset some of this increased transfer.

As part of the ordinary transfers, \$50 million in state highway funds is transferred to the Kansas Department of Revenue for the vehicle operating fund. Again, the \$4 surcharge, helps to offset the hit to the state highway fund. It is important to note, the current IKE plan was passed as an investment of \$9.9 billion over 10 years which included current estimates on motor fuels taxes, registration fees and sales tax collected.

***Costs continue to rise for projects***

The costs for KDOT construction projects have increased significantly over the last two years. KDOT recently reported a 29% increase from 2021 to 2022 and a 45% increase in construction costs from 2020 to 2022. As costs have risen for construction projects, any reductions to state highway funding could jeopardize projects in the IKE pipeline.

***Leave surcharge language***

The KCA would respectfully request an amendment to leave the \$4 surcharge in place by removing the language that is stricken on page 28, lines 20-22 and allow current law to stand.

Again, I thank you for allowing me the opportunity to appear before you today. We appreciate your favorable consideration of a proposed amendment to leave the surcharge in place.

(1) FY 2019 is not of \$50.0 million transferred in the SGF pursuant to Section 129(a) of 2019 SB 25.

(2) Note in FY 2014, a total of \$400,000 was transferred to the Kansas Biodigester Fuel Producer Incentive Fund due to an error in the bill posting. A total of \$200,000 was transferred back to the SHF in FY 2015 to correct the error. The number shown on this chart reflects the net result of this action and the legislative intent for this transfer.

(3) Please note the number shown for the FY 2015 transfer to KHP is not of a \$142,900 transferred back to the SHF under 2015 SB 4; the number shown for the FY 2017 KHP transfer is net of \$65,387 transferred back from KHP under 2017 HB 2052. Additionally, the number shown for FY 2019 KHP transfer is net additional funding for:

Furthermore, the transfers in FY 2022 and FY 2023 include additional funding for:

(a) Additional SHF support for aircraft operations (FY 2022 - \$21.8 million; FY 2023 - \$2.8 million); and

(b) Additional SHF support of the Career Progression Pay Plan (FY 2023 - \$5.6 million).

(4) The Eisenhower Legacy Transportation Program (2020 House Sub. for SB 173), known as IHE, was enacted during the 2020 Session and became effective in FY 2021. Prior years reflect the Transportation Works for Kansas (T-WORKS) Program (FY 2011 - FY 2020).
