Testimony in support of HB2558

Chairman Francis and committee members,

It is my pleasure to submit testimony in favor of HB2558. This legislation provides an opportunity to purchase a distinctive license plate for those men and women who served in occupied enemy territory after the end of certain conflicts or wars came to an end. One example is the occupied forces in Berlin Germany from May 9, 1945, to October 2, 1990. Other occupied territories/nations include Austria, Italy, Japan and Korea.

As you all are aware, the members of our armed forces stood in harm's way to secure for us the freedom we enjoy today. I fully support their desire to proudly display their achievements on a license plate designed for them. Mr. Thagard will do his best to answer any questions you have. I hope you will consider this legislation favorably. Thank you for your time.

Respectfully,
