# **Insurance Regulation**

### **Consequences of Not Funding this Program**

Without company examination the chances of insurance company insolvencies would increase. Without monitoring rates and forms, insurance may not be affordable or accessible. Without licensure of individuals, corporations and associations, insurance policies could be written by unqualified or suspect individuals. Without regulation of the firefighter relief associations FRA funds may be misappropriated. Without regulation of the workers compensation program eligible workers compensation claims would not be paid.

#### **Program Goals**

A. Protect the insurance consumers of Kansas through supervision, control and regulation of persons and organizations transacting the business of insurance in the state.

B. To administer the Firefighter Relief Act.

C. To administer the portion of the Workers Compensation Act for claims involving employers who are uninsured and unable to pay claims.

## **Program History**

The Kansas Insurance Department was established by the Kansas Legislature in 1871. Chapter 40 of the Kansas Statutes Annotated bestow many complex duties and responsibilities upon the Commissioner of Insurance by granting the Commissioner sole supervision, control and regulation of the various individuals and entities authorized to transact the business of insurance in this state, including supervision over many of their business transactions. Insurance is not regulated at the federal level, so the Department has exclusive jurisdiction over the \$22.2 billion business of insurance in Kansas.

# **Securities Regulation**

#### **Consequences of Not Funding this Program**

Without funding to regulate capital formation and investment activity for the benefit of Kansas investors and businesses, extensive securities fraud and illegal or unethical conduct with significant financial damages would likely occur. Investor abuse and investment losses due to ignorance of best practice knowledge on investing and awareness of fraudulent schemes would likely increase and have significant financial impacts. Also, lack of funding could hamper support of prosecutions by the Attorney General and County and District Attorneys.

**Program Goals** 

A. To administer and enforce the registration and examination provisions of the Kansas Uniform Securities Act.

B. To develop and implement investor education and protection initiatives to inform the public about investing in securities and protect the public from violations of the Kansas Uniform Securities Act.

### **Program History**

Kansas was the first state to regulate the sale of securities for protection of its investor citizens and capital markets when the original version of the Kansas Securities Act was passed in 1911. Securities regulation began in Kansas because, according to J. N. Dolley, Kansas Bank Commissioner at that time who was the driving force behind passage of the new law, it was intended to prevent the sale of securities by promoters who promised rain but delivered only "blue sky". During the next few years, several other states passed similar laws, and now all states have securities laws that are referred to as "Blue Sky" laws. The Kansas and other states' securities laws were enacted many years before the first federal Securities Act of 1933. The Kansas Securities Act (K.S.A. 17-1252 et seq.) was supplemented and refined many times since 1911 until enactment of the Kansas Uniform Securities Act (KUSA) in 2004 which became effective on July 1, 2005 (K.S.A. 17-12a101 et seq.). The Securities Commissioner and staff also administer and enforce the Kansas Loan Broker's Act (KLBA, K.S.A. 50-1001 et seq.) to regulate the services of loan brokers in Kansas who are not otherwise regulated or exempt.
