

get two ballot companies plus the printer company to drop everything else and do our work in our allotted timeframe. There are many county clerks interested in having the Extension District candidate filing deadline statute amended to coincide with the City/School statutes.

The original statute saying when candidates are to file is 25-2007 for schools, 25-2109 for cities, and 71-1414 describing the filing deadlines for office. They all say that the deadline is 10 weeks before the April election. The Extension District statute 2-264 says the filing deadline is 5 weeks minus one day before the April election.

An amendment to this statute 2-264 should contain the wording that: the filing deadline would be 10 weeks prior to the April election date. It would therefore coincide with all other City/School election candidate filing deadlines.

Please contact Sherrie Reibel, Allen County Clerk at 620-365-1407. Sherrie can shed light on this subject also. I believe the Kansas County Clerks/ Election Officials association is working on this, but we can always use your help.

Thank you for your time and your reading this e-mail.
