Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 8-1508 is hereby amended to read as follows: 8-1508. Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word legend, and said lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication. (1) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left, unless a sign at such place prohibits either such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(2) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may enter the intersection cautiously only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(3) Unless otherwise directed by a pedestrian-control signal, as provided in K.S.A. 8-1509, and amendments thereto, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication. (1) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be
exhibited immediately thereafter when vehicular traffic shall not enter the
intersection.

(2) Pedestrians facing a steady circular yellow or yellow arrow signal,
unless otherwise directed by a pedestrian-control signal as provided in
K.S.A. 8-1509, and amendments thereto, are thereby advised that there is
insufficient time to cross the roadway before a red indication is shown,
and no pedestrian shall then start to cross the roadway.

(c) Steady red indication. (1) Vehicular traffic facing a steady circular
red or red arrow signal alone shall stop at a clearly marked stop line, but
if none, before entering the crosswalk on the near side of the intersection,
or if none, then before entering the intersection, and shall remain standing
until an indication to proceed is shown, except as provided in paragraphs
(2) and (3) and (4) of this subsection. Any turn provided for in said
paragraphs (2) and (3) and (4) shall be governed by the applicable
provisions of K.S.A. 8-1545, and amendments thereto.

(2) Unless a sign is in place prohibiting a turn, vehicular traffic facing
a steady red signal may cautiously enter the intersection to make a right
turn after stopping as required by paragraph (1) of this subsection. After
stopping, the driver shall yield the right-of-way to any vehicle in the
intersection or approaching on another roadway so closely as to constitute
an immediate hazard during the time such driver is moving across or
within the intersection or junction of roadways. Such vehicular traffic
shall yield the right-of-way to pedestrians lawfully within an adjacent
crosswalk and to other traffic lawfully using the intersection.

(3) Unless a sign is in place prohibiting a turn, vehicular traffic upon
a roadway restricted to one-way traffic facing a steady red signal at the
intersection of such roadway with another roadway restricted to one-way
traffic which is proceeding to the left of such vehicular traffic, may
cautiously enter the intersection to make a left turn after stopping as
required by paragraph (1) of this subsection. After stopping, the driver
shall yield the right-of-way to any vehicle in the intersection or
approaching on another roadway so closely as to constitute an immediate
hazard during the time such driver is moving across or within the
intersection or junction of roadways. Such vehicular traffic shall yield the
right-of-way to pedestrians lawfully within an adjacent crosswalk and to
other traffic lawfully using the intersection.

(4) The driver of a motorcycle or a person riding a bicycle facing any
steady red signal, which fails to change to a green light within a reasonable
period of time because of a signal malfunction or because the signal has failed
to detect the arrival of the motorcycle or bicycle because of its size or weight,
shall have the right to proceed subject to the rules applicable after making a
stop at a stop sign under K.S.A. 8-1528, and amendments thereto [stated
herein. After stopping, the driver or rider shall yield the right-of-way to
any vehicle in or near the intersection or approaching on a roadway so closely as to constitute an immediate hazard during the time such driver or rider is moving across or within the intersection or junction of roadways. Such motorcycle or bicycle traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.]

(4) (5) Unless otherwise directed by a pedestrian-control signal as provided in K.S.A. 8-1509, and amendments thereto, pedestrians facing a steady circular red or red arrow signal alone shall not enter the roadway.

(d) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.]
