thereafter. The resulting product is the high density at-risk pupil
weighting of the district.

pupil weighting because enrollment of at-risk pupils in the district falls
below the requirements of subsection (a), the high density at-risk pupil
weighting of the district shall be the greater of: (1) The high density at-

year thereafter. The resulting product is the medium density at-risk pupil
weighting of the district.

pupil weighting because enrollment of at-risk pupils in the district falls
below the requirement of subsection (a), the medium density at-risk pupil
weighting of the district shall be the greater of: (1) The medium density at-
risk pupil weighting in the current school year; (2) the medium density
at-risk pupil weighting in the prior school year; or (3) the average of the medium density at-risk pupil weighting in the current school year and the
preceding two school years.

The provisions of this subsection shall expire on June 30, 2011.
