AN ACT concerning retirement and benefits, relating to the Kansas public employees retirement fund; alternative investments; amending K.S.A. 2011 Supp. 74-4921 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 2011 Supp. 74-4921 is hereby amended to read as follows: 74-4921. (1) There is hereby created in the state treasury the Kansas public employees retirement fund. All employee and employer contributions shall be deposited in the state treasury to be credited to the Kansas public employees retirement fund. The fund is a trust fund and shall be used solely for the exclusive purpose of providing benefits to members and member beneficiaries and defraying reasonable expenses of administering the fund. Investment income of the fund shall be added or credited to the fund as provided by law. All benefits payable under the system, refund of contributions and overpayments, purchases or investments under the law and expenses in connection with the system unless otherwise provided by law shall be paid from the fund. The director of accounts and reports is authorized to draw warrants on the state treasurer and against such fund upon the filing in the director's office of proper vouchers executed by the chairperson or the executive director of the board. As an alternative, payments from the fund may be made by credits to the accounts of recipients of payments in banks, savings and loan associations and credit unions. A payment shall be so made only upon the written authorization and direction of the recipient of payment and upon receipt of such authorization such payments shall be made in accordance therewith. Orders for payment of such claims may be contained on (a) a letter, memorandum, telegram, computer printout or similar writing, or (b) any form of communication, other than voice, which is registered upon magnetic tape, disc or any other medium designed to capture and contain in durable form conventional signals used for the electronic communication of messages.

(2) The board shall have the responsibility for the management of the fund and shall discharge the board's duties with respect to the fund solely in the interests of the members and beneficiaries of the system for the exclusive purpose of providing benefits to members and such member's
beneficiaries and defraying reasonable expenses of administering the fund
and shall invest and reinvest moneys in the fund and acquire, retain,
manage, including the exercise of any voting rights and disposal of
investments of the fund within the limitations and according to the powers,
duties and purposes as prescribed by this section.

(3) Moneys in the fund shall be invested and reinvested to achieve the
investment objective which is preservation of the fund to provide benefits
to members and member beneficiaries, as provided by law and accordingly
providing that the moneys are as productive as possible, subject to the
standards set forth in this act. No moneys in the fund shall be invested or
reinvested if the sole or primary investment objective is for economic
development or social purposes or objectives.

(4) In investing and reinvesting moneys in the fund and in acquiring,
retaining, managing and disposing of investments of the fund, the board
shall exercise the judgment, care, skill, prudence and diligence under the
circumstances then prevailing, which persons of prudence, discretion and
intelligence acting in a like capacity and familiar with such matters would
use in the conduct of an enterprise of like character and with like aims by
diversifying the investments of the fund so as to minimize the risk of large
losses, unless under the circumstances it is clearly prudent not to do so,
and not in regard to speculation but in regard to the permanent disposition
of similar funds, considering the probable income as well as the probable
safety of their capital.

(5) Notwithstanding subsection (4): (a) Total investments in common
stock may be made in the amount of up to 60% of the total book value of
the fund;
(b) the board may invest or reinvest moneys of the fund in alternative
investments if the following conditions are satisfied:
 (i) The total of the annual net commitment to alternative investment
investments does not exceed more than 1% 5% of the total market value of
investment assets of the fund as measured from the end of the preceding
calendar year;
 (ii) if in addition to the system, there are at least two other
sophisticated investors qualified institutional buyers, as defined by section
301 of the (a)(1)(i) of rule 144A, securities and exchange
 (iii) the system's share in any individual alternative investment is
limited to an investment representing not more than 20% of any such
individual alternative investment;
 (iv) the system has received a favorable and appropriate
recommendation from a qualified, independent expert in investment
management or analysis in that particular type of alternative investment;
 (v) the alternative investment is consistent with the system's
investment policies and objectives as provided in subsection (6);
(vi) the individual alternative investment does not exceed more than 2.5% of the total alternative investments made under this subsection. If the alternative investment is made pursuant to participation by the system in a multi-investor pool, the 2.5% limitation contained in this subsection is applied to the underlying individual assets of such pool and not to investment in the pool itself. The total of such alternative investments made pursuant to participation by the system in any one individual multi-investor pool shall not exceed more than 20% of the total of alternative investments made by the system pursuant to this subsection. Nothing in this subsection requires the board to liquidate or sell the system's holdings in any alternative investments made pursuant to participation by the system in any one individual multi-investor pool held by the system on the effective date of this act, unless such liquidation or sale would be in the best interest of the members and beneficiaries of the system and be prudent under the standards contained in this section. The 20% limitation contained in this subsection shall not have been violated if the total of such investment in any one individual multi-investor pool exceeds 20% of the total alternative investments of the fund as a result of market forces acting to increase the value of such a multi-investor pool relative to the rest of the system's alternative investments; however, the board shall not invest or reinvest any moneys of the fund in any such individual multi-investor pool until the value of such individual multi-investor pool is less than 20% of the total alternative investments of the fund;

(vii) the board has received and considered the investment manager's due diligence findings submitted to the board as required by subsection (6) (c); and

(viii) prior to the time the alternative investment is made, the system has in place procedures and systems to ensure that the investment is properly monitored and investment performance is accurately measured;

and

(ix) the total of alternative investments does not exceed 25%–{15%} of the total investment assets of the fund.
