qualifying public school employees, community college employees and
other eligible employees, the plan shall include all plan options as allowed
under section 403(b) of the internal revenue code. For all other
employees, the plan must be established as part of the pension plan
pursuant to K.S.A. 74-4920, and amendments thereto, for the exclusive
benefit of members and their beneficiaries, and as a qualified
governmental plan pursuant to sections 401(a), 414(d), and 414(k) of the federal internal revenue code and its implementing regulations. The plan is established in addition to any retirement, pension, deferred compensation or other benefit plan currently administered by the state or a political subdivision thereof. Assets of the plan must be held in the trust for the Kansas public employees retirement system.

New Sec. 5. (a) For participants in the 403(b) plan, up to the amount allowed by the internal revenue code, each participating employer shall make a mandatory contribution of 6% of an eligible employee’s compensation to the 403(b) plan for participants in such plan. Eligible employees for the 403(b) plan may contribute an additional, discretionary contribution through payroll deductions on a pre-tax or after-tax basis. The 403(b) plan shall comply with all applicable provisions of the internal revenue code.
(b) For all other members, up to the amount allowed by the internal revenue code, each active member shall make a mandatory contribution of 6% of the member's compensation to the member's employee directed account in the 401(a) plan. These contributions shall be picked up by the employer via a salary reduction as provided in section 414(h)(2) of the federal internal revenue code. An employer may not pick up these contributions without a corresponding salary reduction as provided in section 414(h)(2) of the federal internal revenue code. A member under this subsection may not make voluntary contributions to the plan. The 401(a) plan shall comply with all applicable provision of the internal revenue code.

(c) A member's employee directed account includes the member's mandatory contributions under this section, and the gains and losses on those contributions. The member's employee directed account is vested from the date the employee becomes a member of the plan.

New Sec. 6. (a) A wide range of investment alternatives shall be established for the employee directed accounts. For qualifying public school employees, community college employees and other eligible employees, such investment alternatives shall include, but not be limited to, investment alternatives as allowed under section 403(b) of the federal internal revenue code. For all employees, there also shall be offered an investment alternative that is similar to the investment portfolio of the Kansas public employees retirement system.

(b) The board shall from time to time review the suitability and management of investment alternatives under the employee directed accounts and may change the alternatives to be offered. The board shall notify affected members of potential changes before any changes become effective, except if the board determines there is a compelling need to change an alternative immediately.

(c) The default option for any member or beneficiary who does not have an effective investment direction shall be the fund that is similar to the investment portfolio of KPERS.

(d) Assets within each employee directed account must be invested as directed by the member within the investment alternatives established by the board, unless the board determines there is a compelling need to remove assets from an investment alternative. In such a case, the asset will be moved to the default alternative until the member elects another investment alternative.

New Sec. 7. (a) With respect to the employee directed accounts, the board may:

(1) Assess fees on member employee directed accounts to pay the reasonable administrative costs of the accounts, which fees may be reasonable or asset based fees, or both, as determined by the board;
(2) negotiate with a vendor or vendors for vendor reimbursement of board administrative expenses for the accounts; (3) assess fees on employers to pay reasonable administrative costs of the accounts; and (4) assess specific fees on an individual member employee directed account to pay specific expenses attributable to that member. (b) All fees assessed must be fully disclosed to members and treated as public information. (c) Costs for the board to secure investment advice, recordkeeping, contract oversight, educational materials for members, performance evaluations and other appropriate information and services are included as part of the administrative expenses of the plan.

New Sec. 8. The board shall establish a rollover account for each member and shall accept the rollover of contributions and the income on those contributions from another eligible retirement plan to the member's rollover account only to the extent allowed under applicable federal law. The board shall establish policies with respect to the rollover accounts as to investments, distributions and other administrative matters.

New Sec. 9. (a) An employer credit shall be made to the member's employer annuity account at the end of each calendar quarter according to the following schedule: (1) One percent of compensation for each member who has up to one year of service; (2) one and one-half percent of compensation for each member who has one but less than two years of service; (3) two percent of compensation for each member who has two but less than three years of service; (4) two and one-half percent of compensation for each member who has three but less than four years of service; (5) three percent of compensation for each member who has four but less than five years of service; (6) three and one-half percent of compensation for each member who has five but less than six years of service; (7) four percent of compensation for each member who has six but less than seven years of service; (8) four and one-half percent of compensation for each member who has seven but less than eight years of service; and (9) five percent of compensation for each member who has eight or more years of service. (b) An active member's employer shall contribute a percentage of compensation, determined by the board, which must be allocated to the death and long-term disability plan under K.S.A. 74-4927, and amendments thereto.
(c) Any credited service accrued by a member under the provisions of the pre-2014 plan shall be credited for the purpose of computing such member's years of service under this section.

New Sec. 10. (a) A member's employer annuity account is the sum of all employer credits to the account plus the interest credits on the account, which shall be determined at the end of each year. The interest credits shall be determined under section 11, and amendments thereto.

(b) If the member's employer annuity account is not vested upon the member's termination of plan membership, as provided in section 13, and amendments thereto, the employer credits and interest credits are forfeited as provided in section 13, and amendments thereto. If the member's employer annuity account is vested upon the member's termination of plan membership, as provided in section 13, and amendments thereto, but the member dies prior to attaining normal retirement age without a spouse eligible for the employer annuity account under section 13, and amendments thereto, the employer credits and interest credits are forfeited. Forfeitures may not be used to increase a member's account, but instead will be used to pay administrative expenses of the accounts or to reduce employer contributions.

New Sec. 11. At the end of each calendar year, the board shall credit each employer annuity account with a zero percent interest credit. At the end of each calendar year, the board shall also credit each employer annuity account with a supplemental interest credit rate, which will equal the net investment return on the KPERS portfolio, which may be negative or positive, in that particular calendar year. If the member retires in the middle of a calendar year, the board shall credit that member's employer annuity account with a supplemental interest credit rate that equals the net investment return on the KPERS portfolio, which may be negative or positive, for that portion of that calendar year. For the purposes of determining the member's annuity benefit amount pursuant to section 13, and amendments thereto, a member's employer annuity account shall not be less than the total amount of employer credits to the account.

New Sec. 12. (a) Any time after termination of service or death, a member or the member's beneficiary may file a written application with the board and take a distribution of the member's employee directed account from the plan through any combination of the following payout options, each of which is subject to the applicable provisions of the federal internal revenue code and the applicable regulations of the internal revenue service:

1. A direct rollover to an eligible retirement plan;
2. a lump-sum distribution; or
3. an optional form of periodic distribution offered by the board by official action.
(b) The board by official action may specify minimum account balances for purposes of allowing benefit payment options and rollovers in accordance with federal law.

New Sec. 13. (a) A member is vested, but subject to forfeiture, in the member's employer annuity account upon completion of five years of service. A member's benefit is nonforfeitable upon the attainment of normal retirement age and the completion of at least five years of service, whichever is later.

(b) Except as provided in subsection (d), a member who has a nonforfeitable interest in the member's employer annuity account, at any time after termination from service and the attainment of normal retirement age, shall receive an annuity that may be provided by employer credits and income credits in the employer annuity account, using factors established by the board by official action as of the member's annuity start date, and based on the pension benefits guaranty corporation distress termination interest rates. The normal form of benefit shall be a single life annuity with five-year certain. The member may elect any joint and survivor option described in K.S.A. 74-4918, and amendments thereto.

(c) Except as provided in subsection (d), in the case of an active or inactive member:

(1) Who is vested in the member's employer annuity account;

(2) who has 10 or more years of service at death; and

(3) who dies before attaining normal retirement age, with their spouse at time of death designated as their sole primary beneficiary, the member's surviving spouse on and after the date the member would have attained normal retirement age had they not died, shall receive an annuity that may be provided by employer credits and income credits in the employer annuity account, using factors established by the board by official action as of the beneficiary's annuity start date and taking into consideration the pension benefit guaranty corporation distress termination interest rates. The normal form of benefit shall be a single life annuity with five-year certain. The beneficiary may elect any joint and survivor option as described in K.S.A. 74-4918, and amendments thereto.

(d) If a member's vested employer annuity account is less than $1,000 upon separation from service, the account balance shall be mandatorily distributed to the member in accordance with section 401(a)(31)(B) of the federal internal revenue code. If the member does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly, then the board will pay the distribution to the member directly.

New Sec. 14. A member's beneficiary must be determined as provided in the pre-2014 plan regulations. Upon filing a written application with the board after the death of a member, the member's
beneficiary is entitled to the member's employee directed account.

New Sec. 15. (a) Members of the retirement system under the Kansas public employees retirement system act of 2014 shall be covered in the death and disability plan in accordance with K.S.A. 74-4927, and amendments thereto, but subject to the provisions of this section.

(b) (1) In the event that a member becomes eligible for and begins receiving a long-term disability benefit under the plan, such member shall be given participating service credit for the entire period of such disability. Such member's employer annuity account shall be credited with the amount of credits and interest prescribed in this act for the entire period of such disability.

(2) The salary upon which credits to such member's employer annuity account are based shall be the employee's salary at the time of disability, which shall be adjusted once each year on January 1, but only after 5 years of disability, by the lesser of: (A) The percentage increase in the consumer price index for all urban consumers as published by the bureau of labor statistics of the United States department of labor measured in the prior November, minus 1%; or

(B) 4% per annum.

(3) All credits to the employer annuity account shall cease upon the earliest of: (A) Death; (B) attainment of normal retirement age; or (C) the date the member is no longer entitled to receive disability benefits pursuant to law.

New Sec. 16. The provisions of K.S.A. 74-49,122, 74-49,123 and 74-49,124, and amendments thereto, apply to this act, except the definitions of "actuarial equivalent" and "actuarial computation" are not applicable to this act.

New Sec. 17. (a) The election provisions of this section and any related provisions shall not be implemented until the board of trustees of the Kansas public employees retirement system has obtained approval for the election and related provisions specified in this section from the federal internal revenue service. The election provisions of this section and any related provisions are severable from the remainder of this act and shall be repealed if the federal internal revenue service refuses to grant such approval or issues an adverse decision.

(b) Except as otherwise provided in this act, a nonvested member of the system under the provisions of K.S.A. 74-4901 et seq., and 74-49,201 et seq., and amendments thereto, on July 1, 2013, shall elect to transfer such member's employee contributions and interest earnings credited thereon to an: (1) Employee directed account; or (2) employer annuity account. As part of this election, a member may designate all or part of such member's employee contributions and interest earnings to be allocated to each account. Members shall make such election within a 90-
day period established by the board. Elections made pursuant to this
section shall be made on a form and in a manner prescribed by the board.
An election under this section, including the provisions of subsection (c),
is a one-time irrevocable election.

(c) If a member fails to make an election pursuant to this section or if
the federal internal revenue service refuses to grant approval of such
election or issues an adverse decision, such member's employee
contributions and interest earnings shall be transferred to an employee
directed account.

New Sec. 18. (a) Any member of the legislature who has earned a
vested retirement benefit under the provisions of K.S.A. 74-4901 et seq.,
and amendments thereto, or K.S.A. 74-49,201 et seq., and amendments
thereto, shall have the present value of such vested retirement benefit,
including all employee and employer contributions, earned before January
1, 2014, converted to a lump-sum amount and shall have such lump-sum
amount transferred to the employer annuity account of such member.

(b) On and after January 1, 2014, any benefit earned or accrued by a
member of the legislature under the provisions of this act shall be
calculated based only upon all compensation received: (1) As per diem
compensation for service during a regular or special session of the
legislature pursuant to subsection (a) of K.S.A. 46-137a, and amendments
thereto; (2) as per diem compensation for attendance at in-state or out-
of-state meetings pursuant to K.S.A. 75-3212, 75-3215, or 75-3223, in the
amount prescribed under subsection (a) of K.S.A. 46-137a, and
amendments thereto; (3) as additional compensation for legislative officers
as provided in K.S.A. 46-137b, and amendments thereto; and (4) as any
other additional compensation provided by law, excluding any allowances
or reimbursements for any expenses incurred.

New Sec. 19. The provisions of sections 1 through 16 and section 18
and 19 shall be effective on and after January 1, 2014.

Sec. 20. K.S.A. 2011 Supp. 74-4914d is hereby amended to read as
follows: 74-4914d. Any additional cost resulting from the normal
retirement date and retirement before such normal retirement date for
security officers as provided in K.S.A. 74-4914c, and amendments thereto,
and disability benefits as provided in K.S.A. 74-4914e, and amendments
thereto, shall be added to the employer rate of contribution for the
department of corrections as otherwise determined under K.S.A. 74-4920,
and amendments thereto, except that the employer rate of contribution for
the department of corrections, including any such additional cost added to
such employer rate of contribution pursuant to this section shall in no
event exceed the employer rate of contribution for the department of
corrections for the immediately preceding fiscal year by more than the
following amounts expressed as a percentage of compensation upon which
security officers contribute during the period: (a) For the fiscal year commencing in calendar year 2006, an amount not to exceed more than 0.5% of the amount of the immediately preceding fiscal year; and (b) for the fiscal year commencing in calendar year 2007, and in each subsequent calendar year, an amount not to exceed more than 0.6% of the amount of the immediately preceding fiscal year.

Sec. 21. K.S.A. 2011 Supp. 74-4920 is hereby amended to read as follows: 74-4920. (1) (a) Upon the basis of each annual actuarial valuation and appraisal as provided for in subsection (3)(a) of K.S.A. 74-4908, and amendments thereto, the board shall certify, on or before July 15 of each year, to the division of the budget in the case of the state and to the agent for each other participating employer an actuarially determined estimate of the rate of contribution which will be required, together with all accumulated contributions and other assets of the system, to be paid by each such participating employer to pay all liabilities which shall exist or accrue under the system, including amortization of the actuarial accrued liability as determined by the board. The board shall determine the actuarial cost method to be used in annual actuarial valuations, to determine the employer contribution rates that shall be certified by the board. Such certified rate of contribution, amortization methods and periods and actuarial cost method shall be based on the standards set forth in subsection (3)(a) of K.S.A. 74-4908, and amendments thereto and shall not be based on any other purpose outside of the needs of the system.

(b) (i) For employers affiliating on and after January 1, 1999, upon the basis of an annual actuarial valuation and appraisal of the system conducted in the manner provided for in K.S.A. 74-4908, and amendments thereto, the board shall certify, on or before July 15 of each year to each such employer an actuarially determined estimate of the rate of contribution which shall be required to be paid by each such employer to pay all of the liabilities which shall accrue under the system from and after the entry date as determined by the board, upon recommendation of the actuary. Such rate shall be termed the employer's participating service contribution and shall be uniform for all participating employers. Such additional liability shall be amortized as determined by the board. For all participating employers described in this section, the board shall determine the actuarial cost method to be used in annual actuarial valuations to determine the employer contribution rates that shall be certified by the board.

(ii) The board shall determine for each such employer separately an amount sufficient to amortize all liabilities for prior service costs which shall have accrued at the time of entry into the system. On the basis of such determination the board shall annually certify to each such employer separately an actuarially determined estimate of the rate of contribution
which shall be required to be paid by that employer to pay all of the
liabilities for such prior service costs. Such rate shall be termed the
employer's prior service contribution.

(2) The division of the budget and the governor shall include in the
budget and in the budget request for appropriations for personal services
the sum required to satisfy the state's obligation under this act as certified
by the board and shall present the same to the legislature for allowance and
appropriation.

(3) Each other participating employer shall appropriate and pay to the
system a sum sufficient to satisfy the obligation under this act as certified
by the board.

(4) Each participating employer is hereby authorized to pay the
employer's contribution from the same fund that the compensation for
which such contribution is made is paid from or from any other funds
available to it for such purpose. Each political subdivision, other than an
instrumentality of the state, which is by law authorized to levy taxes for
other purposes, may levy annually at the time of its levy of taxes, a tax
which may be in addition to all other taxes authorized by law for the
purpose of making its contributions under this act and, in the case of cities
and counties, to pay a portion of the principal and interest on bonds issued
under the authority of K.S.A. 12-1774, and amendments thereto, by cities
located in the county, which tax, together with any other fund available,
shall be sufficient to enable it to make such contribution. In lieu of levying
the tax authorized in this subsection, any taxing subdivision may pay such
costs from any employee benefits contribution fund established pursuant to
K.S.A. 12-16,102, and amendments thereto. Each participating employer
which is not by law authorized to levy taxes as described above, but which
prepares a budget for its expenses for the ensuing year and presents the
same to a governing body which is authorized by law to levy taxes as
described above, may include in its budget an amount sufficient to make
its contributions under this act which may be in addition to all other taxes
authorized by law. Such governing body to which the budget is submitted
for approval, may levy a tax sufficient to allow the participating employer
to make its contributions under this act, which tax, together with any other
fund available, shall be sufficient to enable the participating employer to
make the contributions required by this act.

(5) (a) The rate of contribution certified to a participating employer as
provided in this section shall apply during the fiscal year of the
participating employer which begins in the second calendar year following
the year of the actuarial valuation.

(b) (i) Except as specifically provided in this section, for fiscal years
commencing in calendar year 1996 and in each subsequent calendar year,
the rate of contribution certified to the state of Kansas shall in no event-
exceed the state's contribution rate for the immediately preceding fiscal year by more than 0.2% of the amount of compensation upon which members contribute during the period.

(ii) Except as specifically provided in this subsection, for the fiscal years commencing in the following calendar years, the rate of contribution certified to the state of Kansas and to the participating employers under K.S.A. 74-4931, and amendments thereto shall in no event exceed the state's contribution rate for the immediately preceding fiscal year by more than the following amounts expressed as a percentage of compensation upon which members contribute during the period: (A) For the fiscal year commencing in calendar year 2005, an amount not to exceed more than 0.4% of the amount of the immediately preceding fiscal year; (B) for the fiscal year commencing in calendar year 2006, an amount not to exceed more than 0.5% of the amount of the immediately preceding fiscal year; and (C) for the fiscal year commencing in calendar year 2007 and in each subsequent calendar year, an amount not to exceed more than 0.6% of the amount of the immediately preceding fiscal year.

(iii) Except as specifically provided in this section, for fiscal years commencing in calendar year 1997 and in each subsequent calendar year, the rate of contribution certified to participating employers other than the state of Kansas shall in no event exceed such participating employer's contribution rate for the immediately preceding fiscal year by more than 0.15% of the amount of compensation upon which members contribute during the period.
