
Be it enacted by the Legislature of the State of Kansas:

New Section 1. (a) (1) Except as provided in subsection (a)(2), commencing with fiscal year 2012, in any fiscal year in which the amount of selected actual state general fund receipts from such fiscal year exceeds the selected actual state general fund receipts for the immediately preceding fiscal year by more than 2%, the director of legislative research shall certify such excess amount to the secretary of revenue and the director of the budget. Upon receipt of such certified amount, the secretary shall compute the excess percentage increase in selected actual state general fund receipts above 2%. Based on such excess percentage of calculated receipt growth, the secretary shall compute the income tax rate reductions to go into effect for the next tax year that would reduce by such certified amount the tax rates during the fiscal year after the next fiscal year according to the provisions of this section, as follows: (A) Rate reductions for individual income tax rates shall be applied to reduce the middle marginal income tax rate applicable to the current tax year by such excess percentage, the highest marginal income tax rate applicable to the current tax year, by such excess percentage minus 0.5%, and the lowest marginal income tax rate applicable to the current tax year by such excess percentage plus 0.5%, except that in no case shall such excess percentage plus 0.5% result in an income tax rate increase. In any such computation by the secretary pursuant to this subsection in which the income tax rate for any individual marginal income tax rate is below 0.4%, such rate shall be 0%. Based on all such determinations, the secretary shall reduce individual income tax rates prescribed by K.S.A. 79-32,110, and amendments thereto, as required by this section;

(B) upon all individual marginal income tax rates being reduced to
0% pursuant to the provisions of subsection (a)(1)(A), rate reduction next shall be applied for the surtax on corporations applicable to the current tax year by such excess percentage. In any such computation by the secretary pursuant to this subsection in which the surtax is below 0.4%, such surtax rate shall be 0%. Based on such determination, the secretary shall reduce the surtax on corporations prescribed by K.S.A. 79-32,110, and amendments thereto, as required by this section; and

(C) upon the surtax on corporations being reduced to a rate which when combined with the normal tax rate on corporations is equal to or below the combined surtax and normal tax imposed on national banking associations and state banks or is equal to or below the combined surtax and normal tax imposed on trust companies and savings and loan associations, rate reductions shall be proportionately applied for the tax on corporations, the tax on national banking associations and state banks, and the tax on trust companies and savings and loan associations. Such rate reductions shall be first applied to the surtax until reduced to 0% and then applied to the normal tax for each such tax. In any such computation by the secretary pursuant to this subsection in which any such tax is below 0.4%, such tax rate shall be 0%. Based on such determination, the secretary shall reduce the surtax and the normal tax on corporations prescribed by K.S.A. 79-32,110, and amendments thereto, the surtax and normal tax on national banking associations and state banks prescribed by K.S.A. 79-1107, and amendments thereto, and the surtax and normal tax on trust companies and savings and loan associations prescribed by K.S.A. 79-1108, and amendments thereto, as required by this section.

(2) In any fiscal year in which the amount of selected actual state general fund receipts for such fiscal year are 102% or less than the selected actual state general fund receipts from the immediately preceding fiscal year, the director of legislative research shall certify such amount and fact to the secretary of revenue and the director of the budget. Upon receipt of such amount and fact, the secretary of revenue shall not make any adjustment to the income tax rates for that tax year.

(b) The secretary of revenue shall report any reduction in income tax rates prescribed by this section to the chairperson of the assessment and taxation committee of the senate, the chairperson of the taxation committee of the house of representatives and the governor, and shall cause notice of any such reduction to be published in the Kansas register prior to September 15 of the calendar year immediately preceding the tax year in which such reduction takes effect.

(d) The state treasurer shall credit all revenue collected or received from the tax imposed by K.S.A. 79-3603, and amendments thereto, as certified by the director, from taxpayers doing business within that portion of a STAR bond project district occupied by a STAR bond project or taxpayers doing business with such entity financed by a STAR bond project as defined in K.S.A. 2011 Supp. 12-17,162, and amendments thereto, that was determined by the secretary of commerce to be of statewide as well as local importance or will create a major tourism area for the state or the project was designated as a STAR bond project as defined in K.S.A. 2011 Supp. 12-17,162, and amendments thereto, to the city bond finance fund, which fund is hereby created. The provisions of this subsection shall expire when the total of all amounts credited hereunder and under subsection (d) of K.S.A. 79-3710, and amendments thereto, is sufficient to retire the special obligation bonds issued for the purpose of financing all or a portion of the costs of such STAR bond project.

(e) All revenue certified by the director of taxation as having been collected or received from the tax imposed by subsection (c) of K.S.A. 79-3603, and amendments thereto, on the sale or furnishing of gas, water, electricity and heat for use or consumption within the intermodal facility district described in this subsection, shall be credited by the state treasurer to the state highway fund. Such revenue may be transferred by the secretary of transportation to the rail service improvement fund pursuant to law. The provisions of this subsection shall take effect upon certification by the secretary of transportation that a notice to proceed has been received for the construction of the improvements within the intermodal facility district, but not later than December 31, 2010, and shall expire when the secretary of revenue determines that the total of all amounts credited hereunder and pursuant to subsection (e) of K.S.A. 79-3710, and amendments thereto, is equal to $53,300,000, but not later than December 31, 2045. For all tax reporting periods during which the provisions of this subsection are in effect, none of the exemptions contained in K.S.A. 79-3601 et seq., and amendments thereto, shall apply to the sale or furnishing of any gas, water, electricity and heat for use or
consumption within the intermodal facility district. As used in this subsection, "intermodal facility district" shall consist of an intermodal transportation area as defined by subsection (oo) of K.S.A. 12-1770a, and amendments thereto, located in Johnson county within the polygonal-shaped area having Waverly Road as the eastern boundary, 191st Street as the southern boundary, Four Corners Road as the western boundary, and Highway 56 as the northern boundary, and the polygonal-shaped area having Poplar Road as the eastern boundary, 183rd Street as the southern boundary, Waverly Road as the western boundary, and the BNSF mainline track as the northern boundary, that includes capital investment in an amount exceeding $150 million for the construction of an intermodal facility to handle the transfer, storage and distribution of freight through railway and trucking operations.

Sec. 18. K.S.A. 2011 Supp. 79-3635 is hereby amended to read as follows: 79-3635. All such claims shall be paid from the sales tax refund fund upon warrants of the director of accounts and reports pursuant to vouchers approved by the director of taxation or by a person or persons designated by the director. The provisions of this subsection shall not be effective for tax year 2013, and all tax years thereafter.

(2) As an alternative to the procedure described by subsection (a)(1), for all taxable years commencing after December 31, 2009, there shall be allowed as a credit against the tax liability of a resident individual imposed under the Kansas income tax act an amount equal to $45 or $90, as the case requires, for each member of a household. There shall be allowed for a claimant who qualifies for an additional personal exemption amount pursuant to K.S.A. 79-32,121, and amendments thereto, an additional amount of $45 or $90, as the case requires. If commencing in tax year 2013, and all tax years thereafter, the amount of such tax credit shall not exceed the claimant's income tax liability for such taxable year, such excess amount shall be refunded to the claimant reduced by the sum of any other credits allowable against the tax liability of the taxpayer pursuant to law.

claim is actually filed with and in the possession of the department of
revenue on or before April 15 of the year next succeeding the year in
which such taxes were paid. The director of taxation may: (1) Extend the
time for filing any claim under the provisions of this act when good cause
exists therefor; or (2) accept a claim filed after the deadline for filing in the
case of sickness, absence or disability of the claimant if such claim has
been filed within four years of such deadline.

(d) In the case of all tax years commencing after December 31, 2010,
the threshold income amounts prescribed in this section and subsection (c)
of K.S.A. 79-3633, and amendments thereto, and the amounts of refund of
taxes and the amounts of the tax credit, both as prescribed in this section,
shall be increased by an amount equal to such threshold amount multiplied
by the cost-of-living adjustment determined under section 1 (f)(3) of the
federal internal revenue code for the calendar year in which the taxable
year commences.

Sec. 20. K.S.A. 2011 Supp. 79-4217 is hereby amended to read as
follows: 79-4217. (a) There is hereby imposed an excise tax upon the
severance and production of coal, oil or gas from the earth or water in this
state for sale, transport, storage, profit or commercial use, subject to the following provisions of this section. Such tax shall be borne ratably by all persons within the term "producer" as such term is defined in K.S.A. 79-4216, and amendments thereto, in proportion to their respective beneficial interest in the coal, oil or gas severed. Such tax shall be applied equally to all portions of the gross value of each barrel of oil severed and subject to such tax and to the gross value of the gas severed and subject to such tax. The rate of such tax shall be 8% of the gross value of all oil or gas severed from the earth or water in this state and subject to the tax imposed under this act. The rate of such tax with respect to coal shall be $1 per ton. For the purposes of the tax imposed hereunder the amount of oil or gas produced shall be measured or determined: (1) In the case of oil, by tank tables compiled to show 100% of the full capacity of tanks without deduction for overage or losses in handling; allowance for any reasonable and bona fide deduction for basic sediment and water, and for correction of temperature to 60 degrees Fahrenheit will be allowed; and if the amount of oil severed has been measured or determined by tank tables compiled to show less than 100% of the full capacity of tanks, such amount shall be raised to a basis of 100% for the purpose of the tax imposed by this act; and (2) in the case of gas, by meter readings showing 100% of the full volume expressed in cubic feet at a standard base and flowing temperature of 60 degrees Fahrenheit, and at the absolute pressure at which the gas is sold and purchased; correction to be made for pressure according to Boyle's law, and used for specific gravity according to the gravity at which the gas is sold and purchased, or if not so specified, according to the test made by the balance method.

(b) The following shall be exempt from the tax imposed under this section:

(1) The severance and production of gas which is: (A) Injected into the earth for the purpose of lifting oil, recycling or repressuring; (B) used for fuel in connection with the operation and development for, or production of, oil or gas in the lease or production unit where severed; (C) lawfully vented or flared; (D) severed from a well having an average daily production during a calendar month having a gross value of not more than $87 per day, which well has not been significantly curtailed by reason of mechanical failure or other disruption of production; in the event that the production of gas from more than one well is gauged by a common meter, eligibility for exemption hereunder shall be determined by computing the gross value of the average daily combined production from all such wells and dividing the same by the number of wells gauged by such meter; (E) inadvertently lost on the lease or production unit by reason of leaks, blowouts or other accidental losses; (F) used or consumed for domestic or agricultural purposes on the lease or production unit from which it is
severed; or (G) placed in underground storage for recovery at a later date
and which was either originally severed outside of the state of Kansas, or
as to which the tax levied pursuant to this act has been paid;
(2) the severance and production of oil which is: (A) From a lease or
production unit whose average daily production is five barrels or less per
producing well, which well or wells have not been significantly curtailed
by reason of mechanical failure or other disruption of production; (B) from
a lease or production unit, the producing well or wells upon which have a
completion depth of 2,000 feet or more, and whose average daily
production is seven barrels or less per producing well, or, if the price of oil as
determined pursuant to subsection (d) is $16 or less, whose average daily
production is seven barrels or less per producing well, or, if the price of oil
as determined pursuant to subsection (d) is $15 or less, whose average
daily production is eight barrels or less per producing well, or, if the price
of oil as determined pursuant to subsection (d) is $14 or less, whose
average daily production is nine barrels or less per producing well, or, if
the price of oil as determined pursuant to subsection (d) is $13 or less,
whose average daily production is 10 barrels or less per producing well,
which well or wells have not been significantly curtailed by reason of
mechanical failure or other disruption of production; (C) from a lease or
production unit, whose production results from a tertiary recovery process.
"Tertiary recovery process" means the process or processes described in
subparagraphs (1) through (9) of 10 C.F.R. § 212.78(c) as in effect on June
1, 1979; (D) from a lease or production unit, the producing well or wells
upon which have a completion depth of less than 2,000 feet and whose
average daily production resulting from a water flood process, is six
barrels or less per producing well, which well or wells have not been
significantly curtailed by reason of mechanical failure or other disruption
of production; (E) from a lease or production unit, the producing well or
wells upon which have a completion depth of 2,000 feet or more, and
whose average daily production resulting from a water flood process, is
seven barrels or less per producing well or, if the price of oil as determined
pursuant to subsection (d) is $16 or less, whose average daily production is
eight barrels or less per producing well, or, if the price of oil as determined
pursuant to subsection (d) is $15 or less, whose average daily production is
nine barrels or less per producing well, or, if the price of oil as determined
pursuant to subsection (d) is $14 or less, whose average daily production is
10 barrels or less per producing well, which well or wells have not been
significantly curtailed by reason of mechanical failure or other disruption
of production; (F) test, frac or swab oil which is sold or exchanged for
value; or (G) inadvertently lost on the lease or production unit by reason of
leaks or other accidental means;
(3) (A) any taxpayer applying for an exemption pursuant to
subsection (b)(2)(A) and (B) shall make application biennially to the director of taxation therefor. Exemptions granted pursuant to subsection (b)(2)(A) and (B) shall be valid for a period of two years following the date of certification thereof by the director of taxation; (B) any taxpayer applying for an exemption pursuant to subsection (b)(2)(D) or (E) shall make application biennially to the director of taxation therefor. Such application shall be accompanied by proof of the approval of an application for the utilization of a water flood process therefor by the corporation commission pursuant to rules and regulations adopted under the authority of K.S.A. 55-152, and amendments thereto, and proof that the oil produced therefrom is kept in a separate tank battery and that separate books and records are maintained therefor. Such exemption shall be valid for a period of two years following the date of certification thereof by the director of taxation; (C) any exemption granted pursuant to subsections (b)(2)(A), (B), (D) or (E) with an odd lease number and an exemption termination date between June 1, 2004, and May 31, 2005, inclusive, shall be valid for a period of one year following the date of certification; and (D) notwithstanding the provisions of paragraph (A) or (B), any exemption in effect on the effective date of this act affected by the amendments to subsection (b)(2) by this act shall be redetermined in accordance with such amendments. Any such exemption, and any new exemption established by such amendments and applied for after the effective date of this shall be valid for a period commencing with May 1, 1998, and ending on April 30, 1999.

(4) the severance and production of gas or oil from any pool from which oil or gas was first produced on or after April 1, 1983, and prior to July 1, 2012, as determined by the state corporation commission and certified to the director of taxation, and continuing for a period of 24 months from the month in which oil or gas was first produced from such pool as evidenced by an affidavit of completion of a well, filed with the state corporation commission and certified to the director of taxation. Exemptions granted for production from any well pursuant to this paragraph shall be valid for a period of 24 months following the month in which oil or gas was first produced from such pool. The term "pool" means an underground accumulation of oil or gas in a single and separate natural reservoir characterized by a single pressure system so that production from one part of the pool affects the reservoir pressure throughout its extent;

(5) the severance and production of oil not to exceed 250 barrels per day from any pool from which oil was first produced on or after July 1, 2012, as determined by the state corporation commission and certified to the director of taxation, and continuing for a period of 24 months from the month in which oil was first produced from such pool as evidenced by an
affidavit of completion of a well, filed with the state corporation
commission and certified to the director of taxation. Exemptions granted
for production from any well pursuant to this subsection shall be valid for
a period of 24 months following the month in which oil was first produced
from such pool. The term "pool" means an underground accumulation of
oil in a single and separate natural reservoir characterized by a single
pressure system so that production from one part of the pool affects the
reservoir pressure throughout its extent;

(6) the severance and production of oil or gas from a three-year
inactive well, as determined by the state corporation commission and
certified to the director of taxation, for a period of 10 years after the date
of receipt of such certification. As used in this paragraph, "three-year
inactive well" means any well that has not produced oil or gas in more
than one month in the three years prior to the date of application to the
state corporation commission for certification as a three-year inactive well.
An application for certification as a three-year inactive well shall be in
such form and contain such information as required by the state
corporation commission, and shall be made prior to July 1, 1996. The
commission may revoke a certification if information indicates that a
certified well was not a three-year inactive well or if other lease
production is credited to the certified well. Upon notice to the operator that
the certification for a well has been revoked, the exemption shall not be
applied to the production from that well from the date of revocation;

(6)(7) (A) The incremental severance and production of oil or gas
which results from a production enhancement project begun on or after
July 1, 1998, shall be exempt for a period of seven years from the startup
date of such project. As used in this paragraph (6):

(1) "Incremental severance and production" means the amount of oil
or natural gas which is produced as the result of a production enhancement
project which is in excess of the base production of oil or natural gas, and
is determined by subtracting the base production from the total monthly
production after the production enhancement project is completed.

(2) "Base production" means the average monthly amount of
production for the twelve-month period immediately prior to the
production enhancement project beginning date, minus the monthly rate of
production decline for the well or project for each month beginning 180
days prior to the project beginning date. The monthly rate of production
decline shall be equal to the average extrapolated monthly decline rate for
the well or project for the twelve-month period immediately prior to the
production enhancement project beginning date, except that the monthly
rate of production decline shall be equal to zero in the case where the well
or project has experienced no monthly decline during the twelve-month
period immediately prior to the production enhancement project beginning
date. Such monthly rate of production decline shall be continued as the
decline that would have occurred except for the enhancement project. Any
well or project which may have produced during the twelve-month period
immediately prior to the production enhancement project beginning date
but is not capable of production on the project beginning date shall have a
base production equal to zero. The calculation of the base production
amount shall be evidenced by an affidavit and supporting documentation
filed by the applying taxpayer with the state corporation commission.

(3) "Workover" means any downhole operation in an existing oil or
gas well that is designed to sustain, restore or increase the production rate
or ultimate recovery of oil or gas, including but not limited to acidizing,
reperforation, fracture treatment, sand/paraffin/scale removal or other
wellbore cleanouts, casing repair, squeeze cementing, initial installation, or
enhancement of artificial lifts including plunger lifts, rods, pumps,
submersible pumps and coiled tubing velocity strings, downsizing existing
tubing to reduce well loading, downhole commingling, bacteria treatments,
polymer treatments, upgrading the size of pumping unit equipment, setting
bridge plugs to isolate water production zones, or any combination of the
aforementioned operations; "workover" shall not mean the routine
maintenance, routine repair, or like for-like replacement of downhole
equipment such as rods, pumps, tubing packers or other mechanical
device.

(4) "Production enhancement project" means performing or causing
to be performed the following:

(i) Workover;

(ii) recompletion to a different producing zone in the same well bore,
except recompletions in formations and zones subject to a state
corporation commission proration order;

(iii) secondary recovery projects;

(iv) addition of mechanical devices to dewater a gas or oil well;

(v) replacement or enhancement of surface equipment;

(vi) installation or enhancement of compression equipment, line
looping or other techniques or equipment which increases production from
a well or a group of wells in a project;

(vii) new discoveries of oil or gas which are discovered as a result of
the use of new technology, including, but not limited to, three dimensional
seismic studies.

(B) The state corporation commission shall adopt rules and
regulations necessary to efficiently and properly administer the provisions
of this paragraph (6) including rules and regulations for the qualification of
production enhancement projects, the procedures for determining the
monthly rate of production decline, criteria for determining the share of
incremental production attributable to each well when a production
enhancement project includes a group of wells, criteria for determining the
start up date for any project for which an exemption is claimed, and
determining new qualifying technologies for the purposes of paragraph (6)
subsection (7)(A)(4)(vii).

(C) Any taxpayer applying for an exemption pursuant to this
paragraph (6) shall make application to the director of taxation. Such
application shall be accompanied by a state corporation commission
certification that the production for which an exemption is sought results
from a qualified production enhancement project and certification of the
base production for the enhanced wells or group of wells, and the rate of
decline to be applied to that base production. The secretary of revenue
shall provide credit for any taxes paid between the project startup date and
the certification of qualifications by the commission.

(D) The exemptions provided for in this paragraph (6) shall not apply
for 12 months beginning July 1 of the year subsequent to any calendar year
during which: (1) In the case of oil, the secretary of revenue determines
