- Exclude food offered to volunteer duty staff from being considered remuneration if it does not exceed \$10 in value per volunteer;
- Allow games to be operated by a licensee, including a “beneficiary organization”; and
- Require that at least one member of the licensee organization be on duty during a session, assist with the game, and be listed with the Office of Charitable Gaming.

### **Background**

Proponents of the original bill included representatives from All American Bingo, Hayden High School, American Legion, and Mid American Consulting. Written testimony was provided by a representative of Kansas Charitable Gaming. No opponents testified on the original bill.

The Committee amended the bill by clarifying that a remuneration limit applied to each volunteer, and by prohibiting bingo games from beginning two hours prior to the first regular game of bingo or not less than one hour after the last regular game. The Committee made the enactment of the original bill upon publication in the statute.

According to the fiscal note from the Division of Budget, passage of the original bill would increase tax revenue, but the tax would be negligible.
