

2012 Kansas Statutes

38-335. Interstate compact; declaration of need and policy. (a) It is hereby found and declared that: (1) Adoptive families of special needs children who move to other states often have difficulty in obtaining medical services due to reluctance by medical providers to accept Kansas medical cards; (2) as a consequence, adoptive placements for special needs children have been disrupted in the past due to the inability to receive medical services in the state of residence; and (3) the best interests of special needs children and their adoptive families who move to other states would be served by assuring a continuation of adoption assistance as long as there is a need and by providing a mechanism through which medical services can be provided in the state of residence.

(b) It shall, therefore, be the policy of this state, in adopting the interstate compact on adoption and medical assistance, to cooperate fully with other states in providing for continuing adoption assistance and medical services for special needs children who move.

History: L. 1985, ch. 141, § 1; July 1.
