for such fees to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto.
accordance with the Kansas judicial review act. The court on review shall hear the case without delay.
regulation of the secretary, the secretary may investigate the public water supply system.
Whenever an investigation of any public water supply system is undertaken by the secretary, it shall be the
duty of the secretary to furnish to the secretary information to determine the sanitary quality of the water supplied to the public and to determine compliance with applicable state laws and rules and regulations. The secretary may issue an order requiring changes in the source or sources of the public water supply system or in the manner of storage, purification or treatment utilized by the public water supply system before delivery to consumers, or distribution facilities, collectively or individually, as may in the secretary's judgment be necessary to safeguard the sanitary quality of the water and bring about compliance with applicable state law and rules and regulations. The supplier of water shall comply with the order of the secretary.
(c) (1) As used in this subsection (c), "municipal water treatment residues" means any solid, semisolid or liquid residue generated during the treatment of water in a public water supply system treatment works.
(2) A public water supply system may place or store municipal water treatment residues resulting from
dedimentation, coagulation or softening treatment processes in basins on land under the ownership and control of
the public water supply system operator provided that such storage or placement is approved and permitted by the
secretary under this section as part of the public water supply system.
 operation of such basins. Such rules and regulations shall require permit applications by the public water suppliers for such basins to include a copy of the plans and specifications for the location, design and operation of such basins. Such rules and regulations and permit applications shall contain comprehensive rules and regulations for the location, design and operation of such basins, the means of conveyance of the treatment residues to such basins, the content of treatment residues, the proposed method of basin operation and closure, the method of any anticipated expansion and any other data and information required by the secretary.
(4) Whenever complaint is made to the secretary by the mayor of any city of the state, by a local health officer or
by a county or joint board of health, or whenever an investigation is undertaken at the initiative of the secretary,
relating to any alleged violation of the provisions of the permit for placement or storage of municipal water treatment residues in such basins, the public water supply system operator shall furnish all information the secretary requires. If the secretary finds that there is any violation of the terms of the permit, that the means of placement and storage exceed the terms of the permit or that any other condition exists by reason of the means of placement and storage that may be detrimental to the health of any inhabitants of the state or to the environment, the secretary shall have the authority to issue an order amending the permit or otherwise requiring the operator to perform remedial measures to curtail or prevent such detrimental conditions.
(d) Orders of the secretary under this section, and hearings thereon, shall be subject to the provisions of the
Kansas administrative procedure act. Any action of the secretary pursuant to this section is subject to review in
accordance with the Kansas judicial review act. The court on review shall hear the case without delay.
(e) The secretary shall establish by rule and regulation a system of fees for the inspection and regulation of
public water supplies. No such fee shall exceed $0.02 per 1,000 gallons of water sold at retail by a public water supply system. All such fees shall be paid quarterly in the manner provided for fees imposed on retail sales by public water supply systems pursuant to K.S.A. 82a-954, and amendments thereto. The secretary shall remit all moneys collected for such fees to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the public water supply fee fund created by K.S.A. 65-163c, and amendments thereto.
(f) There is hereby created an advisory committee to make recommendations regarding: (1) Fees to be adopted
by the secretary under subsection (e); (2) means of strengthening on-site technical assistance to public water supply systems; (3) standards for on-site and classroom water treatment operator certification programs; (4) other matters concerning public water supplies; and (5) to advise the secretary regarding expenditure of moneys in the public water supply fee fund created by K.S.A. 65-163c, and amendments thereto. Such advisory committee shall consist of one member appointed by the secretary to represent the department of health and environment, one member appointed by the director of the Kansas water office to represent such office and two members appointed by the secretary as follows: One from three nominations submitted by the Kansas section of the American waterworks association, and one from three nominations submitted by the Kansas rural water association. Members of the advisory committee shall serve without compensation or reimbursement of expenses. The advisory committee shall meet at least four
times each year on call of the secretary or a majority of the members of the committee.
