## **Background**

At the House on Health and Human Services hearing, a representative from the Kansas Department of Health and Environment (KDHE) testified as a proponent stating the changes in the bill are necessary to comply with new requirements for recipients of the Child Care and Development Block Grant (CCDBG) administered jointly by KDHE and the Kansas Department for Children and Families (DCF). The CCDBG funds the child care licensing program subsidy benefits, administered by DCF and the child care licensing program, administered by KDHE. A representative from DCF submitted proponent written only testimony. There was no other testimony provided.

The House Committee adopted a technical amendment offered by the Office of Revisor of Statutes.

According to the fiscal note prepared by the Division of the Budget, enactment of the bill, as introduced, may require additional staff time; however, KDHE indicates any additional staff time would be absorbed within current resources.
