

My name is Chris Combs. I live in Wichita, Kansas in District 81. My representative is Blake Carpenter. Thank you for this opportunity to speak in front of you.

Unfortunately, on April 5th of 2016 my life turned upside down when a truck did not stop at a stop sign and pulled out in front of me. I did not know at the time, but would come to learn that because of current Kansas law I was the victim of more than just a bad driver, I was the victim of paying for insurance coverage that I could not access.

Back when the truck pulled out in front of me I was knocked unconscious. I had pain in my shoulder, neck, head, right hand, right knee, chest and back. After emergency room treatment, CT scans, physical therapy, injections, an MRI, and orthopedic treatment my bills were approximately \$16,000. My doctor's advised me that I needed arthroscopic shoulder surgery in addition to the medical bills I had already experienced. I had also miss work due to the injury putting me in a difficult financial situation, I would also have to miss more work for the surgery.

The driver of the truck that hit me had a Key insurance policy with limits of \$25,000.

I asked my attorney about my Nationwide policy because I knew I paid for underinsured motorist coverage. It was listed on bill. My attorney advised that because of current Kansas law, I did not have access to the \$25,000 of underinsured coverage I paid for through Nationwide.

I did not believe this because as you can see from my declarations page from Nationwide that I paid \$42.07 for uninsured/underinsured coverage of \$25,000. I was charged and paid for underinsured coverage, but because the bad driver that caused my injuries had the same coverage of \$25,000 I was not allowed to obtain the benefits I paid for. I am very upset that I was charged for and paid for something that could never be utilized. I believe I should have had access to that \$25,000 that I paid for.

This is unfair and should be changed. I strongly encourage you to prevent this from happening to Kansans in the future and raise the minimum limits of liability insurance and also allow people to have access to what they are charged and pay for in underinsured claims.

Thank you for your time.

Chris Combs
