

Possible Amendments

- 1) Amend KSDE district report to include a line item for per pupil all funds.
- 2) Amend both appropriations sections—other than line items affected by the formula pieces of this bill—to match the Senate Mega and Omnibus bills. This would help staff out. Some fund names/numbers need to be aligned between the two bills.
- 3) Amend appropriations sections to split out the general state aid appropriation into all of the following individual appropriations and allow for any overages in one of them to cover for shortfalls in another:
 - a. Foundation funding (enrollment)
 - b. Virtual Aid
 - c. Low and High Enrollment Aid
 - d. Transportation funding
 - e. Bilingual funding
 - f. At-Risk funding (includes regular at risk and high density)
 - g. Career Technical Education funding
