

2017 Kansas Statutes

65-1,251. Influenza immunization for children; awareness and participation. The department of health and environment shall work to increase influenza immunization awareness and participation among parents of children aged six months to five years in child care facilities. The official website of the department of health and environment shall have information on the benefits of annual immunization against influenza for children and its programs offered for the children. The department of health and environment shall cooperate with the department for aging and disability services in order to distribute the information to the parents and child care facilities effectively in August or September in every year.

History: L. 2008, ch. 98, § 2; L. 2013, ch. 134, § 5; July 1.
