

## 2017 Kansas Statutes

**75-3517. Records and documents to be produced on acid-free paper.** All records and printed documents created by state agencies shall be produced on acid-free paper having a minimum pH of 7.0, unless use of such paper is infeasible because of excessive costs or inadequate availability of the paper.

**History:** L. 1992, ch. 179, § 1; July 1.
