

February 11, 2020

Dear Education Committee Members,

I am unable to attend the hearing on 2-13-2020, however, medical freedom is important to me. Please support Representative Heurbert's bill HB 2601.

As parents we request that you respect a parents right to make all medical decisions for their own children.

As citizens of Kansas we request that KDHE follow the appropriate channels of adding to or changing the immunization schedule, as opposed to last year (2019) with the way Hep A and Meningococcal was added.

Thank you,
Deja Stephenson
Derby, Kansas
