

Dear Education Committee Members,

I cannot be present at the hearing on 02/13/2020 but I am in strong support of HB 2601. Medical freedom for myself and my family of 8 is a very important topic and I urge you to support Representative Steve Huebert's bill.

There is corruption and a violation of procedures within KDHE that needs to be addressed. Their ties with pharma and IKC (Immunize Kansas Coalition) are very clear conflicts of interest, and we the people should not have to suffer the effects of these wrongdoings.

Mandating vaccines is also a violation of my religious freedom and rights as guaranteed to me in the United States of America. I ask that you please continue to support this freedom which affects every citizen in our state and country by supporting HB 2601.

Thank you for your attention to this matter; and again, I urge you to support HB 2601 on 2/13/2020.

Sincerely,

Holle Balzer
