

To whom this may concern,

My name is Jessica and I am 27 years old. To me the the HB 2003 getting passed would mean the world. For one I could drive to and from work myself rather than relying on my husband to transport me to every single place I may need to go. Also it would help me advance in my career. As right now I am limited on what I can and and can't do, due to the no DL. It would mean I didn't have to fear a simple traffic stop. i.e. last week my husband and I were pulled over for not stopping before a pedestrian crosswalk, my husband replied "there's no signaling or lines painted for one to know it's a crosswalk" to which the officer obliged. We were let off with not even a warning. That simple stop for myself would have meant immediate detention for no DL and caused a lot of turmoil in my life as it was during our lunch break. If I could have that peace of mind I would be able to do a lot more things for myself and be of more use to my community. Thank you for your attention in this matter and I hope you consider passing this bill for the betterment of this whole community.

Sincerely,

Jessica Valenzuela
