Kansas House Committee on Taxation

HB 2607

Chairperson and Committee Members

Thank you for this opportunity to appear before you in support of HB 2607. The issue before you is how to best collect annual property taxes. As communities continue, on an annual bases, to fund the various and often increasing services for their respective communities the collection of all sources of revenue becomes increasingly more important. I believe that the State of Kansas is faced with the same issue for many of its revenues.

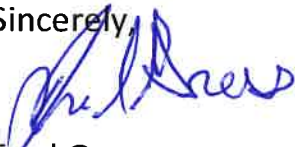

This effort to ask for legislative changes to assist with the collection of property taxes started when representatives of the Communities in Montgomery County met with our State Representatives and Senator to discuss the issue. I should note that individuals from the Montgomery County Commission, the County Clerk, the County Treasurer and the County Appraiser's Office were involved as well. The initial attention was generated with the publication of the Delinquent Tax List and Notice for Montgomery County that was required to be published not once but three times in the official newspaper at a cost of well over \$3,000.00. A copy of the delinquent properties is included and the total taxes outstanding amounted to \$3,053,680.42. As provided by law a publication fee was added to each property and added \$16.00 to the tax bill.

The phrase, two things in life are true, "Death and Taxes". Death will come when it is your turn. Property taxes, and they won't be going down, are mailed in November of each year with the first half due on December 20<sup>th</sup> ,second

half on May 10<sup>th</sup>. The purpose of this legislation is to provide options to the County Governments to structure the payment of Property Taxes in an alternate format. The desire is that the alternate format would make it easier to make property tax payments and stay off of the delinquency list. Individual citizens that struggle to make those December payments should immediately find an improved family cash flow. Will it be easy on taxing units to adjust to a new approach? Change can create confusion but sometimes the end result is well worth the effort. The proposed change strengthens local control and that is a good thing and if the tax collections increase that is an even better result.

I encourage you to consider the proposed legislation. Collectively we need to make positive changes to an already continuous issue.

Sincerely,

Fred Gress  
City Administrator

# DELINQUENT TAX LIST AND NOTICE

(THIS IS NOT A SHERIFF'S SALE; THESE PROPERTIES ARE NOT FOR SALE)

Notice is hereby given that so much of each tract of land or town lot described in the following list located in Montgomery County, Kansas, as may be necessary for the purpose, will be on the first Tuesday of September, 2019, for the taxes and charges thereon for the year of 2018 be transferred by the Montgomery County Treasurer at the treasurer's office at Montgomery County Courthouse in Independence, Kansas, to the tax sale book, pursuant to Kansas Statutes 79-2302 and 79-2303. State law requires a publication fee of \$16.00 be assessed against each name listed.

Some of the names listed below in this legal publication may have already paid their real estate taxes or may be awaiting results of a tax protest hearing before paying second half taxes due. Unfortunately, it is impossible to delete those names from publication because of statutory requirements.

Although these procedures are required by law, I regret any undue embarrassment this publication may cause those who have paid their taxes after the publication or list preparation deadlines or who are still awaiting tax protest decisions.

Nancy Clubine, Montgomery County Treasurer  
August 1, 2019
