

## **Driver Training; SB 94**

**SB 94** requires a motor vehicle accident avoidance course (course) associated with a required reduction in motor vehicle insurance premium charges to be at least four hours in duration. The bill requires the course utilize a nationally recognized driver training curriculum or a curriculum approved by a state or federal agency, replacing approval of a course by the National Safety Council or a “governmental agency such as the State Board of Education.” The bill also updates terms, including replacing “discount” with “premium reduction,” and specifies the insured participant is the principal operator of the covered vehicle.
