

2020 Kansas Statutes

79-1458. Installation and maintenance of records and data; open to public inspection. The county appraiser shall install and maintain such records and data relating to the identification and appraisal of all property in the county, taxable and exempt, required by the director of property valuation. Except as specifically provided by law, all records of the county appraiser, the county board of equalization and the director of property valuation relating to the identification and appraisal of real and personal property shall be open at all reasonable times to public inspection.

History: L. 1982, ch. 391, § 5; July 1.
