Dr. Mark Steffen, Senator  
Room 235-E  
Kansas State Capitol  
300 SW 10th St.  
Topeka, KS. 66612

Dear Sen. Steffen,

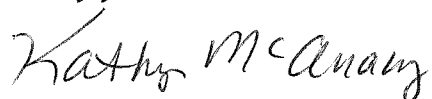

I am writing today because these matters are of great importance to me and my family. I will be brief to respect your time.

**I advocate for your support of KS Bill 212.** Please prevent KDHE from adding additional vaccines to the childhood schedule. This, I believe, should be a family choice not a mandate. I have a child who was permanently damaged by vaccine.

**I also advocate for KS Bill 213.** Our vaccine choices shouldn't be mandated, let alone as a prerequisite for employment. I was under the impression that our health records and choices were a private matter.

I am pleased the Senate approved SB 273. Thank you so much.

Sincerely yours,

A handwritten signature in cursive script that reads "Kathy McAnany".
