2.0 **Specifications**

The Contractor is to provide study and report on the Intellectual and Developmental Disability (I/DD) waiver and Physical Disability (PD) waiver for the waiting lists Kansas Department for Aging and Disability Services.

**Background/History:**

On March 11, 2021, President Biden signed into law the American Rescue Plan Act (ARPA). Section 9817 provides enhanced federal funding for Medicaid Home and Community Based Services (HCBS) through a one-year 10 percent increase to the share of state Medicaid spending contributed by the federal government. This one-year increase in federal matching funds will result in new, time-limited dollars that can be strategically invested in HCBS services in the state of Kansas through March of 2024. From these funds, the Kansas Department for Aging and Disability Services (KDADS) has allocated funds for a study of the Intellectual and Developmental Disability (I/DD) waiver and Physical Disability (PD) waiver waiting lists.

Kansas Department for Aging and Disability Services (KDADS) Home and Community Based Services (HCBS) provides oversight for a system of community-based supports and services for persons in Kansas with disabilities. Information about HCBS waiver programs can be found on the agency’s website. Providers include a variety of not-for-profit and for-profit organizations as well as governmental entities.

One of the seven HCBS waivers is the Intellectual / Developmental Disability (I/DD) waiver. The I/DD serves individuals age five and older who meet the definition of intellectual disability, having a developmental disability, or are eligible for care in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID). Those with a developmental disability may be eligible if their disability was present before age 22 and they have a substantial limitation in three or more areas of life functioning.

Another HCBS waiver is the Physical Disability waiver. The Physical Disability (PD) waiver serves individuals 16 to 64 years of age who meet the criteria for nursing facility placement due to their physical disability, who are determined disabled by social security standards, and who are Medicaid eligible. The I/DD waiver serves around 9,000 Kansans and the PD waiver serves around 6,000 Kansans. Both the I/DD waiver and the PD waiver have a waiting list for services.

There are approximately 4,500 Kansans on the waiting list for the intellectual and developmental disabilities (I/DD) HCBS waiver program and approximately 2,000 Kansans on the waiting list for the physical disability (PD) HCBS waiver. Unfortunately, much is unknown about the individuals on the Waiting List for both waivers. While the state can track basic information (e.g., age, residence), there is not a process established to gather information about current needs or their anticipated needs during the next 5 years.

Further, a significant number of people are moving off the waiting list because of a crisis, through the KDADS crisis and exception policies. Experiencing a crisis as the mechanism for accessing services is not an ideal situation for people in crisis or their families. Additionally, crisis enrollment makes it difficult for Community Developmental Disability Organizations (CDDOs) and service provider organizations to plan for effective support.

The intent of this project is to gather the data to inform data-driven decision-making about planning to effectively and efficiently serve people on the waiting lists, leading to better outcomes for Kansans with I/DD and PD, and their communities. KDADS believes this would also assist stakeholders with implementing Kansas’ Employment First law as it would inform the number of people with I/DD who are ready to work, with appropriate support in place.

The Contractor is to analyze the current and future service needs of individuals on the I/DD and PD waiver waiting lists, develop a methodology to identify individuals at risk for crises, and to track and trend data that will inform decisions regarding system capacity building and reducing the waiting lists for services.
Statement of Work

A. Collection, Compilation, and Analysis of Existing Data

1. To better understand what data is currently available on people with I/DD and PD on the Waiting List, as well as the movement of people on and off the Waiting List, the Contractor shall partner with KDADS to gather and summarize currently available administration data from KDADS, Kansas Department of Health and Environment (KDHE), CDDOs, and Managed Care Organizations (MCOs).

2. The Contractor shall integrate and analyze the data collected by various agencies and organizations.

3. The Contractor shall explain any gaps in information that is needed to identify needs of people on the waiting lists.

B. Collection and Analysis of Current and Future Support Needs

1. The Contractor shall collect and analyze information about demographics, experiences, and needs of people on the I/DD and PD waiting lists.

2. The Contractor shall gather data and assess the support needs of individuals on the Waiting List who are at risk for entering services through a crisis or exception in the next 3-5 years with the goal of being able to predict the precursors to crisis and exceptions to access waiver services.

3. The Contractor shall gather and analyze data to forecast service needs at the provider-level and CDDO-level currently, and up to 5 years out, so the capacity to provide appropriate services can be built.

4. The Contractor shall gather and analyze data to track important trends of individuals on the waiting list, such as health and employment status, at a statewide level to better understand existing support needs.

C. Data Gathering

1. Contractor shall meet confidentiality requirements with Protected Health Information (PHI). Bidder must be able to comply with HIPAA requirements.

2. Contractor shall provide a timeline for the data gathering activities included in Section B, Scope of Work and provide periodical updates to the agency.

3. Contractor shall document the methods it uses to conduct the data gathering activities included in Section B, Scope of Work.

4. Contractor shall incorporate plain language and cultural responsiveness in any of its outreach and assessment methods.

5. Contractor shall work with KDADS and other stakeholder partners to gain approval for questions used in surveys, or other tools used prior to their use.
6. Contractor shall explain how the data collection methods developed as a result of this project can be maintained.

D. Data Analysis

1. Contractor will meet the data analysis requirements necessary to fulfill the project. Contractor will document and perform data analysis for:
   a. Existing Data that is collected from existing sources including KDADS and community partners.
   b. Data on support needs of people currently on the waiting lists.
   c. Data on waiting lists and capacity needs of the system for the next five years.
   d. Recommendations developed from data regarding the needs of the waiting list and recommendations that will reduce the waiting list and ensure capacity to meet the needs of those on the waiting list for the next five years.

Partnership with KDADS Stakeholders

A. The Contractor shall work with some of KDADS partners which may include the following:

- Community Developmental Disability Organizations (CDDOs) have extensive knowledge of people in their area who are on the Waiting List and will be responsible for serving those people once they come off the waitlist.

- Self-Advocate Coalition of Kansas (SACK) has extensive experience leading focus groups and interviews with people with intellectual and developmental disabilities as well as creating plain language resources. The contractor will partner with SACK to develop plain language survey items and reports.

- Centers for Independent Living (CIL) provide services to individuals with disabilities, their families, and their communities. Their goal is to empower individuals with disabilities to live independently.

Project Deliverables:

A. Data as requested by KDADS in Section B, C, and D Statement of Work

   1. Analysis and summary of data requested in each part of Sections B, C, D, and Statement of Work.

   2. Provide KDADS the information from the data collection.
B. Executive Summary and Final Report. A draft report prior to finalization is to be provided and reviewed with the agency.

1. A comprehensive report that is successfully submitted to KDADS before the end of the project contract.

2. The report should provide the following:

   a. a valuable understanding of the service needs of individuals on the waiting lists to KDADS and its stakeholders;
   b. the ability to document the needs of people coming off the waiting lists and to potentially identify and prevent crisis situations leading to immediate service needs;
   c. the ability to predict service needs at the system and CDDO-level currently and up to 5 years out so that planning for appropriate services over time can be implemented;
   d. the ability to track significant trends (health, employment status) of people on the waiting lists statewide to better understand existing support needs;
   e. the ability to monitor and understand the support needs of people on the waiting lists, to potentially inform planning to reduce the number of people on the Waiting List for services;
   f. the ability to make data-informed decisions about system funding needs.

The Contractor has proposed a comprehensive approach to meet this Statement of Work. Their approach consists of two aims: Aim 1, Collection, Compilation, and Analysis of Existing Data and Aim 2, Collection and Analysis of Current and Future Support Needs.

1. Conflict of Interest: The Contractor has identified any potential conflict of interest that exists regarding the service provided for this contract. The University of Kansas Center for Research, Inc. (KUCR) is a not-for-profit research organization that operates for the benefit of the University. KUCR was incorporated in 1962 to develop and administer sponsored programs in engineering and related interdisciplinary areas at KU. Effective July 1, 1997, KUCR's services expanded to encompass all sponsored programs conducted throughout the Lawrence campus. KU has an existing conflict of interest policy that is compliant with the Kansas Board of Regents Policy and federal and state policies concerning conflict of interest. Part of this policy requires individual staff members completing a disclosure each year. KUCR has received sponsored funding for projects through the years from KDADS but there is no perceived conflict of interest by either the organization as a whole or any of the individuals listed in this proposal.
