

Kansas Board of Emergency Medical Services

Consequences of Not Funding this Program

Public safety in pre-hospital care is jeopardized when the competency of resources are not ensured prior to dispatch. Qualified attendants and services are not in place to respond to emergencies appropriately. Substandard care from failure to adhere to evidence based medicine.

Statutory Basis	Mandatory vs. Discretionary	MOE/Match Rqt.	Priority Level
Specific K.S.A. Chapter 65, Article 61	Mandatory	No	1

Program Goals

- A. To promote EMS through the consistent application of laws
 B. To provide support for the ambulance services, EMS providers, and EMS educational organizations in maintaining statutory and regulatory compliance
 C. To enhance patient care through evidence-based practice

Beginning with the Bureau of Emergency Medical Services within the Kansas Department of Health and Environment (KDHE), and later, legislation transferred EMS operations to the Kansas Highway Patrol while EMS training remained within the University of Kansas Medical Center, the Kansas Board of Emergency Medical Services was established in 1988 by K.S.A. 65-6102, and the current board assumed all powers, duties and functions concerning EMS. The 2004 Legislature established permanent funding for the Board of Emergency Medical Services with the passage of SB 312 which allows the Board .25% of Kansas Fire Insurance Premiums in the State of Kansas (K.S.A. 75-1508). The 2006 Legislature, with the passage of SB 546, established the Kansas EMS Information System (KEMSIS). The intent of this system is to collect and analyze EMS information for assisting the Board in improving the quality of emergency medical services. The 2010 Legislature with the passage of SB 262 established a Medical Advisory Council for KBEMS and added two physicians to the Board. This will assist the Board as state ambulance services need assistance in the development of guidelines for their attendants. Additionally, SB 262 enhanced the treatment capabilities of EMS attendants by moving from authorized activities to a scope of practice. As a result, communities throughout Kansas will be afforded a higher level of pre-hospital care. The 2016 Legislature passed SB 225 incorporating the State of Kansas in the Interstate Compact for Recognition of Emergency Personnel Licensure. The Compact is being established to facilitate the day-to-day movement of EMS personnel across state boundaries in performance of their EMS duties. The Compact serves many purposes including increasing public access to EMS personnel, enhancing public safety, and supporting licensing of military members separating from active duty. The Legislature also amended K.S.A. 65-6111 by passing SB 224 to enable the board to levy fines and issue subpoenas. The 2019 Legislature passed SB 53, which amended multiple statutes in completing four items: 1) Changed the term "attendant" to "emergency medical service provider"; 2) created an inactive certificate; 3) enabled the Board to perform a fingerprint based criminal history record check on new applicants; and 4) changed the minimum board meeting frequency from six meetings annually to four annually. The 2021 Legislature passed SB 238 which further strengthened medical direction in Kansas by clearing identifying the roles and responsibilities of the position of medical director and defined medical oversight. This Legislature also passed HB 2270 which made permanent what had been addressed historically as an annual proviso to the appropriations bill for the distribution of funding pursuant to K.S.A. 75-4215 with 20% of those funds being distributed to the EMS Operating Fund.

Performance Measures

Outcome Measures	Goal	FY 2019	FY 2020	FY 2021	3- yr. Avg.	FY 2022
1. Percent of ambulance services inspected	A&B	100%	100%	100%	100%	100%
2. Percent of applicants certified within 7 days of passing both exams	A&B	97%	97%	100%	98%	97%
3. Percent of investigations closed within 180 days	A&B	84	81	73	79	80
<i>Output Measures</i>						
4. Number of providers re-certified	A&B	3,627	4,163	3,869	3,886	4,000
5. Number of continuing education audits	A&B	10	196	215	140	500
<i>Additional Measures as Necessary</i>						

6. Number of new applicants certified	A&B	768	570	760	699	600
7. Percent of patient care reports with a validity score of 80-100	C	89	96.4	98.2	95	100
8. Number of initial education courses	A&B	179	193	282	218	225
9. Average Cost of KRAF awards	B	14,280	19,268	11,504	15,017	14,459
