Agency Estimate

The **agency** requests FY 2022 expenditures of \$1.1 billion, including \$365.4 million SGF. This is an all funds increase of \$335.1 million, or 42.4 percent, above the amount approved by the 2021 Legislature. This increase is largely attributable to increased federal funding made available due to the COVID-19 pandemic for assistance programs such as Temporary Assistance for Needy Families (TANF) pandemic funds, the Low Income Energy Assistance Program (LIEAP), the Low Income Water Assistance Program, and funding for child care providers. This is an SGF decrease of \$500,247, or 0.1 percent, below the agency's approved amount. This is primarily attributable to a decrease in the Kansas Public Employees Retirement System (KPERS) employer contribution rate and moneys inadvertently apportioned for the Hope Ranch pilot program twice during the 2021 Legislative budget process. The SGF decrease is partially offset by an increase in unemployment insurance employer contributions in FY 2022.

The FY 2022 revised estimate includes 2,657.9 FTE positions, which is an increase of 108.0 FTE positions above the approved amount. This increase is primarily due to several pandemic-funded positions that will be deleted once the pandemic funds are expended.

Governor's Recommendation

The **Governor** recommends FY 2022 expenditures of \$1.1 billion, including \$348.1 million SGF. This is an all funds decrease of \$18.4 million, or 1.6 percent, below the agency's FY 2022 revised estimate for human services consensus caseload estimates. The Governor's

recommendation also includes an SGF decrease of \$17.0 million, or 7.4 percent, below the agency's FY 2022 revised estimate.

In October 2021, the human services consensus caseloads estimate for FY 2022 was a decrease of \$1.9 million federal funds for TANF cash assistance and a decrease of \$16.5 million, including \$17.0 million SGF, for foster care below the prior estimate. The decrease in the TANF cash assistance estimate is primarily attributable to the availability of federal COVID-19 stimulus funds. The decrease in the foster care program is primarily attributable to \$10.0 million in reappropriated SGF moneys from FY 2021, as well as maintaining case management provider rates at the FY 2021 levels as adopted from the reduced resources options presented to the 2021 Legislature. While the projected number of children in the program is slightly lower than the spring estimate, there is a slight increase in the projected average cost per child.

The Governor also recommends 2,657.9 FTE positions, which is the same number as the agency's FY 2022 revised estimate.

Senate Subcommittee Recommendation

The **Subcommittee** concurs with the Governor's recommendation in FY 2022, with the following notation:
