

HOUSE BILL No. 2702

AN ACT concerning dentists and dentistry; relating to excepted acts and reciprocity; amending K.S.A. 65-1423 and 65-1434 and repealing the existing sections.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 65-1423 is hereby amended to read as follows: 65-1423. (a) Nothing in this act shall apply to the following practices, acts and operations:

(1) To the practice of a person licensed to practice medicine and surgery under the laws of this state, unless such person practices dentistry as a specialty;

(2) to the performance by a licensed nurse of a task as part of the administration of an anaesthetic for a dental operation under the direct supervision of a licensed dentist or person licensed to practice medicine and surgery so long as the anaesthetic given under the direct supervision of a licensed dentist is consistent with the anaesthetic the dentist is authorized to administer under K.S.A. 65-1444, and amendments thereto, and consistent with subsection (a) of K.S.A. 65-1162, and amendments thereto, and subsection (e) of K.S.A. 65-1163, and amendments thereto;

(3) to the giving by a registered nurse anesthetist of an anaesthetic for a dental operation in an interdependent role as a member of a physician or dentist directed health care team;

(4) the practice of dentistry in the discharge of their official duties by graduate dentists or dental surgeons in the United States army, navy, air force, marines, public health service, coast guard or veterans' administration;

(5) the practice of dentistry by a licensed dentist or *licensed dental hygienist* of other states or countries at meetings of the Kansas state dental association or components thereof, or other like dental organizations approved by the board, while appearing as clinicians;

(6) to the filling of prescriptions of a licensed dentist as hereinafter provided by any person or persons, association, corporation or other entity, for the construction, reproduction or repair of prosthetic dentures, bridges, plates or appliances to be used or worn as substitutes for natural teeth, provided that such person or persons, associations, corporation or other entity, shall not solicit or advertise, directly or indirectly by mail, card, newspaper, pamphlet, radio or otherwise, to the general public to construct, reproduce or repair prosthetic dentures, bridges, plates or other appliances to be used or worn as substitutes for natural teeth;

(7) to the use of roentgen or x-ray machines or other rays for making radiograms or similar records, of dental or oral tissues under the supervision of a licensed dentist or physician except that such service shall not be advertised by any name whatever as an aid or inducement to secure dental patronage, and no person shall advertise that such person has, leases, owns or operates a roentgen or x-ray machine for the purpose of making dental radiograms of the human teeth or tissues or the oral cavity, or administering treatment thereto for any disease thereof;

(8) except as hereinafter limited to the performance of any dental service of any kind by any person who is not licensed under this act, if such service is performed under the supervision of a dentist licensed under this act at the office of such licensed dentist except that such non-licensed person shall not be allowed to perform or attempt to perform the following dental operations or services:

(A) Any and all removal of or addition to the hard or soft tissue of the oral cavity;

(B) any and all diagnosis of or prescription for treatment for disease, pain, deformity, deficiency, injury or physical condition of the human teeth or jaws, or adjacent structure;

(C) any and all correction of malformation of teeth or of the jaws;

(D) any and all administration of general or local anaesthesia of any nature in connection with a dental operation; or

(E) a prophylaxis, except that individuals who are not licensed but who are operating under the direct supervision of a dentist may (i) coronal polish teeth as defined by rules and regulations of the board and (ii) coronal scale teeth above the gum line as long as such procedure is not performed on a patient who has undergone local or general anesthesia at the time of the procedure, is undertaken by a nonlicensed person who has successfully completed necessary training for performing such dental procedure in a course of study approved by the board, which course of study is consistent with American dental association accreditation stan-

dards and includes but is not limited to adequate instruction on scaling the teeth and recognition of periodontal disease, is undertaken by a person who has met the experience requirements for performing such procedures as established by the board;

(9) the practice of dentistry by a dental student, the practice of dental hygiene by a dental hygiene student or the performance of duties permitted under the dental practices act to unlicensed persons by a dental assisting student, provided that (i) the procedures are performed as part of the educational program of dental, dental hygiene or dental assisting that has been approved by the board and in a facility operated or overseen by the approved program and (ii) the student is under the supervision of a dentist or dental hygienist who is either licensed in the state of Kansas or who is eligible to be licensed in Kansas and has an application to be licensed in Kansas pending, serving as a faculty member of the program;

(10) the actions of persons while they are taking examinations for licensure administered or approved by the board; or

(11) the actions of persons while administering examinations approved by the board.

(b) As used in this section:

(1) “Removal of or addition to the hard or soft tissue of the oral cavity” means: (A) A surgical or cutting procedure on hard or soft tissues; (B) the grafting of hard or soft tissues; (C) the final placement or intraoral adjustment of a fixed crown or fixed bridge; and (D) root planing or the smoothing of roughened root surfaces.

(2) “Diagnosis of or prescription for treatment for disease, pain, deformity, deficiency, injury or physical condition of the human teeth or jaws or adjacent structure” means: (A) A comprehensive examination; (B) diagnosis and treatment planning; and (C) the prescription of a drug, medication or work authorization.

(3) “Correction of malformation of teeth or the jaws” means surgery, cutting or any other irreversible procedure.

(4) “General or local anesthesia of any nature in connection with a dental operation” means any general anaesthetic and any local anaesthetic whether block or infiltration but shall not include the administration and monitoring of the analgesic use of nitrous oxide or oxygen, or both.

Sec. 2. K.S.A. 65-1434 is hereby amended to read as follows: 65-1434. (a) The board, without examination, may issue a license as a dentist or dental hygienist to an applicant holding a license in another state upon compliance with the requirements of professional qualification and experience set forth in subsection (b). The board shall prepare and adopt a form of application to be submitted by an applicant for a license to be issued under this section. On the receipt of any such application, the board shall conduct such review, verification or other investigation of the applicant and the professional qualifications, background, experience and practice of the applicant as the board deems necessary to assure full compliance with the requirements of this section. Any license so issued may be revoked by the board upon evidence that an applicant has obtained a license under this section through misrepresentation or omission of a material fact in the application or other information submitted to the board.

(b) Each applicant for licensure under this section must evidence the qualifications and meet the following requirements:

(1) Each applicant for licensure as a dentist under this section must meet the requirements set forth in K.S.A. 65-1426, and amendments thereto. Each applicant for licensure as a dental hygienist must meet any applicable requirements set forth in K.S.A. 65-1455, and amendments thereto.

(2) Each applicant shall show evidence of having successfully completed both a national board examination or an equivalent examination accepted by the state in which the applicant has been previously licensed, and a clinical examination, administered by any state or clinical dental testing agency, of equivalent merit to the clinical examination accepted by the board at the time such applicant completed such examinations.

(3) Each applicant for licensure as a dentist under this section shall have held a license to practice dentistry in one or more other states of the United States for the five-year period immediately preceding the date of application and shall have engaged in the active practice of dentistry

for at least five years prior to the date of application. Each applicant for licensure as a dental hygienist under this section shall have held a license to practice dental hygiene in another state of the United States for the three-year period immediately preceding the date of application and shall have engaged in the active practice of dental hygiene for at least three years prior to the date of application. Successive and continuous periods of active practice in other states will comply with the active practice requirements of this paragraph (3). For the purpose of determining the period of practice, periods of military service will be considered to the extent approved by the Kansas dental board. Service as a full-time faculty member in a school of dentistry will be considered the practice of dentistry to the extent service involved full-time instruction in dentistry including clinical dentistry. Service as a faculty member in a school of dental hygiene will be considered the practice of dental hygiene to the extent such service involved instruction in dental hygiene including clinical dental hygiene. To be considered for the purposes of this statute, any such school of dentistry or dental hygiene must be approved by the Kansas dental board within the meaning of K.S.A. 65-1426 and amendments thereto.

(4) Each such applicant shall show evidence that the applicant has fully complied with all continuing education requirements imposed by the state or states in which the applicant has been licensed and has practiced during the five years immediately preceding the date of the application. In the event the state or states in which the applicant has been licensed and practiced has no such requirement, the applicant shall provide such information concerning continuing education received by the applicant during the five-year period preceding application as may be required by the board. All applicants must have completed continuing education sufficient to comply with that continuing education required of Kansas licensees during the ~~twelve-month~~ *twenty-four-month* period prior to the date of the application for licensure unless the Kansas dental board determines, for good cause shown, that the requirement will work an undue hardship upon the applicant and the requirement is not necessary for the protection of the people of Kansas based upon the training and experience of the applicant.

(5) The applicant shall provide such other information concerning the applicant and the dental education, qualification, experience and professional conduct of the applicant as the board in its discretion deems necessary to its determination to issue a license.

(6) Each applicant shall provide a certificate of the executive director of the board or other agency governing licensure of dentists or dental hygienists of the state in which the applicant has been licensed and has practiced during the required period preceding the date of the application. Such certificate shall state that: (A) The applicant is licensed to practice dentistry or dental hygiene in the state; (B) the license of the applicant has never been suspended or revoked; (C) the applicant has never been the subject of any proceeding for suspension, revocation or other disciplinary action initiated by the board of licensure of any such state during the period the applicant has held a license to practice dentistry or dental hygiene in such state; and (D) no complaint has been filed against the applicant of such substance as, in the judgment of the board of licensure of such state, has required the initiation of proceedings against the applicant. In the event the applicant has practiced dentistry or dental hygiene in more than one other state in the United States, the applicant shall file a similar certificate with respect to such period or periods during which the applicant has practiced in each such state.

(c) The Kansas dental board may direct an applicant to appear before the board at a date, time and place to be determined by the Kansas dental board to answer questions and provide such information concerning the qualifications, background, experience and practice of the applicant as the Kansas dental board may deem necessary.

(d) The term “applicant” as used in this section shall apply to both applicants for licensure as a dentist and applicants for licensure as a dental hygienist unless the context otherwise indicates.

Sec. 3. K.S.A. 65-1423 and 65-1434 are hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its publication in the statute book.

I hereby certify that the above BILL originated in the HOUSE, and passed that body

Speaker of the House.

Chief Clerk of the House.
