May Your gracious hand be with the men, women, and children who serve You in their roles today in the homes, schools, and workplaces of Kansas. “New Section 1. The state board of education shall adopt rules and regulations for administration and effectuation of the provisions of this act and, in accordance therewith, may issue an initial license to teach in this state to any person who successfully completes the alternate teacher preparation program.

New Sec. 2. As used in this act:

(a) “Alternate teacher preparation program” means a program which is provided for by the state board of education under contractual arrangements with an accredited Kansas teacher education institution having an approved teacher education program and with accredited schools and which is designed to ensure the attainment of the basic competencies necessary to engagement in the profession of teaching through correlation of professional development study at the teacher education institution with practical experience at an accredited school.

(b) “Teacher licensure applicant” means a person who applies under authority of this act for an initial license to teach in this state.

New Sec. 3. (a) The alternate teacher preparation program will require a teacher licensure applicant to complete:

(1) Nine semester hours of professional development study at the teacher education institution. Professional development study shall include, but not be limited to, study of adolescent psychology, foundations of education, classroom management, and methodology. Professional development study may be taken during a summer or regular session and must be completed by the applicant prior to entry into the classroom;

(2) a 10 contact hour preservice orientation conducted by the employing accredited school prior to a classroom assignment. Orientation shall include familiarization with school policies, procedures, curriculum, instructional model, community characteristics, and resources;

(3) an internship of two school years (four semesters). During internship, the applicant will be enrolled in three credit hours of internship each semester. The contact and delivery system will be determined by the teacher education institution. At the successful completion of internship, student teaching requirements will be waived; and

(4) professional development coursework during the second year of internship or the second summer of participation in the program as needed to meet professional development standards set by the state board of education.

(b) During internship, a teacher licensure applicant will be supervised by a team of three persons consisting of a mentor teacher from the accredited school employing the applicant, the building principal, and a faculty member from the teacher education institution. Guidelines for supervision will be provided by the teacher education institution. The supervisory team will meet no fewer than three times per school year to evaluate, consult with, and provide advice to the applicant. The last meeting of the first year of internship will result in a recommendation for discontinuation of the program or continuation for the second year of internship. Successful completion of the program will result in a recommendation for licensure.

(c) In order to receive institutional recommendation for initial licensure, a teacher licensure applicant must successfully complete the required semester hours of professional development study at the teacher education institution and the two years of internship. An applicant will be suspended from participation in the program by failure to attain a 3.0 grade

point average on a 4.0 scale or for causes for suspension arising under law or rules and regulations of the state board of education.

New Sec. 4. A teacher licensure applicant shall:

(a) Be the holder of a baccalaureate or higher degree, earned with a minimum cumulative grade point average of 2.75 on a 4.0 scale, and granted by an accredited college or university;

(b) have earned academic credits appropriate to meeting subject and field requirements for licensure with an endorsement at the secondary level for such subject or field. The teacher education institution will assure attainment by the applicant of the minimum semester hour requirements for general education and minimum competence in subjects or fields of specialization. (g) receive and document an offer of a teaching position at an accredited Kansas school in accordance with rules and regulations of the state board of education;

(h) pay a fee approved by the state board of education as part of the contractual arrangements with the teacher education institution and employing accredited school, which fee shall be in an amount determined to be necessary for payment of the costs of the program including, but not limited to, the costs related to the credit hours of professional development study and internship earned at the teacher education institution, the costs for travel expenses of the teacher education institution faculty member of the supervisory team, and the costs for remuneration of the principal and mentor teacher members of the supervisory team. The applicant and employing accredited school will share equally in the costs for remuneration of the principal and mentor teacher.

New Sec. 5. Upon successful completion of the alternate teacher participation program as verified by the teacher education institution, a teacher licensure applicant may apply for licensure on a form provided by the state board of education. The state board shall review the application and the recommendation of the teacher education institution and shall grant or deny licensure. Successful completion of the alternate teacher preparation program will not entitle a teacher licensure applicant to certification with an endorsement in special education.

New Sec. 6. Upon completion of each school year, commencing with the 2004-05 school year, the state board of education shall make a report to the governor and the legislature on the effectiveness of the alternate teacher preparation program. The report shall include the following information:

The requirements and procedures contained in this act for initial issuance of licenses to teach shall be deemed alternative to the requirements and procedures therefor that are in effect under any other

provision of law and under rules and regulations adopted pursuant thereto by the state board of education.”;

The Committee on **Education** recommends **SB 313** be amended on page 1, following the enacting clause, by inserting 12 new sections as follows:

New Section 1. The provisions of this act apply to school districts, to public schools maintained by school districts, and to pupils enrolled in school districts.

Sec. 2. (a) On or before October 31, 2001, the state department of education, in consultation with the Kansas children’s cabinet, the state department of social and rehabilitation services, the state department of health and environment, and prekindergarten through grade 3 teachers, shall determine a school readiness definition including indicators which help assess a child’s school readiness. In determining the school readiness definition and indicators, the state department of education is encouraged to also consult with individuals and organizations knowledgeable about early childhood education and children’s health. The school readiness definition along with indicators will be used by the legislature to assess the effectiveness of state funded preschool programs in the preparation of children for kindergarten. All school districts will implement locally developed kindergarten screening procedures based on the school readiness definition under this section.

(b) On or before October 31, 2001, the state department of education shall define a skill set for reading, for writing and for mathematics which a child at the completion of third grade should be able to execute if the child has mastered third grade level reading, writing and mathematics. Such skill sets shall not be minimum level skills, but shall reflect grade level proficiency.

(c) The state department of education shall design a third grade accomplishment examination to be administered at the end of each school year, beginning with the 2005-06 school year, to determine whether pupils have achieved mastery of the reading, writing and mathematics skill sets. The examination shall be administered to all third grade pupils upon completion of the grade. The state board of education will determine whether this accomplishment examination is in addition to or in lieu of any other state assessments.

(d) On or before October 31, 2001, the state department of education shall set a goal that by 2010, not less than 90% of pupils exiting the third grade have acquired the reading, writing and mathematics skill sets to be determined on the basis of the results of the third grade accomplishment examination. In each year, commencing in 2003, the state department of education shall report its progress toward achieving the 90% by 2010 goal to the legislative educational planning committee. If the goal is not achieved, the state department of education shall establish a new plan to meet the goal.

New Sec. 3. (a) School districts shall construct a plan for identifying grade-level markers which indicate whether a child is progressing adequately toward acquisition of the reading, writing and mathematics skill sets designed by the state department of education and for diagnosing each child’s skill level. The school district shall use assessments or diagnostic reviews during kindergarten and each of the grades first, second and third to determine a child’s level of performance and to target specialized interventions to bring the child up to grade level in reading, writing and mathematics. Each school district’s plan shall embed the assessments or diagnostic reviews into the curriculum and implement a measure to check each child’s progress during the full or spring semesters or both such semesters. The school district shall establish a plan for providing each child needing assistance with locally determined interventions based on input from teachers and parents for the individual child. The plan may include, but need not be limited to, a restructured school day, additional school days, summer school, individualized instruction and such other interventions as the school district may deem necessary. The plan shall not include a requirement for full-day kindergarten attendance. In addition to the foregoing, the plan providing for interventions shall include implementation of a first grade reading intervention that meets the following specifications: A research-based reading intervention method for first-graders with a proven track

record of success, with sustained learning over time using a short-term, one-on-one tutoring intervention when deemed necessary or intensive research based small group tutoring. The diagnostic reviews of assessments may be implemented in addition to current assessments or diagnostic reviews, or in lieu of current assessments or diagnostic reviews, or, if the district currently has appropriate grade level markers, or offers appropriate diagnostic reviews or assessments, or tracking procedures for interventions, the district may continue to use such locally determined practices as long as the district continues to meet quality performance accreditation requirements. School districts shall continue to implement the second grade reading diagnostic currently required by the state.

(b) When a child has been identified as needing assistance, the school district plan shall create a mechanism to track the child's interventions and progress. When a child has accomplished the district-determined level of accomplishment, no further tracking will be necessary unless the child falls behind in another grade. If the child does not accomplish the grade-level markers in reading or writing or math, or any combination thereof, defined by the school district despite intervention, there will be action taken in the best educational interest of the child to reach the grade-level markers. Such action may include, but is not limited to, other more intensive interventions or retention to repeat the grade. The school district will determine the measures by which the child's progress is measured.

(c) Local school districts and schools are encouraged to utilize community volunteers or community-based organizations in the carrying out of intervention plans when appropriate.

New Sec. 4. The state department of education shall pilot the third grade accomplishment examination in the spring of 2002. The school readiness indicator required by subsection (a) of section 2, and amendments thereto, shall be developed by the state department of education on or before August 1, 2002. The plans required by subsection (a) of section 3, and amendments thereto, shall be constructed by school districts on or before August 1, 2002. The statewide program shall begin in the 2002-03 school year. In the spring of 2003, each school district will administer the third grade examination to set the school's baseline.

Sec. 14. K.S.A. 2000 Supp. 72-1113 is hereby amended to read as follows: 72-1113. (a) Each board of education shall designate one or more employees who shall report to the secretary of social and rehabilitation services, or a designee thereof, or to the appropriate county or district attorney pursuant to an agreement as provided in this section, all cases of children who are less than 13 years of age, *enrolled in a school under the jurisdiction of the board of education, and are* not attending school as required by law, and to the appropriate county or district attorney, or a designee thereof, all cases of children who are 13 or more years of age but less than 18 years of age, *enrolled in a school under the jurisdiction of the board of education, and are* not attending school as required by law. The designation shall be made no later than September 1 of each school year and shall be certified no later than 10 days thereafter by the board of education to the secretary of social and rehabilitation services, or the designee thereof, to the county or district attorney, or the designee thereof, and to the commissioner of education. The commissioner of education shall compile and maintain a list of the designated employees of each board of education. The local area office of the department of social and rehabilitation services may enter into an agreement with the appropriate county or district attorney to provide that the designated employees of such board of education shall make the report as provided in this section for all cases of children who are less than 13 years of age and are not attending school as provided by law to the county or district attorney in lieu of the secretary, or the secretary’s designee. If such agreement is made, the county or district attorney shall carry out all duties as otherwise provided by this subsection conferred on the secretary or the secretary’s designee. A copy of such agreement shall be provided to the director of such area office of the department of social and rehabilitation services and to the school districts affected by the agreement.

(b) Whenever a child is required by law to attend school, and the *board of education of the school district in which the child resides has knowledge that the child is not enrolled in a public or nonpublic school, the child shall be considered to be not attending school as required by law and a report thereof shall be made in accordance with the provisions of subsection (a) by a designated employee of the board of education of the school district in which the child resides. The provisions of this subsection are subject to the provisions of subsection (d).*

(c)(1) Whenever a child is required by law to attend school and is enrolled in school, and the child is inexcusably absent therefrom on either three consecutive school days or five

school days in any semester or seven school days in any school year, whichever of the foregoing occurs first, the child shall be considered to be not attending school as required by law. A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a school day without a valid excuse acceptable to the school employee designed by the board of education to have responsibility for the school attendance of such child.

(2) Each board of education shall adopt rules for determination of valid excuse for absence from school and for determination of what shall constitute a "significant part of a school day" for the purpose of this section.

(3) Each board of education shall designate one or more employees, who shall each be responsible for determining the acceptability and validity of offered excuses for absence from school of specified children, so that a designee is responsible for making such determination for each child enrolled in school.

The notice shall inform the parent or person acting as parent that continued failure of the child to attend school without a valid excuse will result in a report being made to the secretary of social and rehabilitation services or to the county or district attorney. Upon failure, on the school day next succeeding personal delivery of the notice or within three school days after the notice was mailed, of attendance at school by the child or of an acceptable response, as determined by the designated employee, to the notice by a parent or person acting as parent of the child, the designated employee shall make a report thereof in accordance with the provisions of subsection (a). The designated employee shall submit with the report a certificate verifying the manner in which notice was provided to the parent or person acting as parent.

(2) Whenever a law enforcement officer assumes temporary custody of a child who is found away from home or school without a valid excuse during the hours school is actually in session, and the law enforcement officer delivers the child to the school in which the child is enrolled or to a location designated by the school in which the child is enrolled to address truancy issues, the designated employee of the board of education shall serve notice thereof upon a parent or person acting as parent of the child that the child was absent from school without a valid excuse and was delivered to school by a law enforcement officer.

(e) Whenever the secretary of social and rehabilitation services receives a report required under this section, the secretary shall investigate the matter. If, during the investigation, the secretary determines that the reported child is not attending school as required by law, the secretary shall institute proceedings under the code for care of children. If, during the investigation, the secretary determines that a criminal prosecution should be considered, the secretary shall make a report of the case to the appropriate law enforcement agency.
