MESSAGE FROM THE GOVERNOR

January 12, 2005

Message to the Senate of the State of Kansas:

Enclosed herewith is Executive Reorganization Order No. 33 and the Governor's Message for that ERO for your information.

Governor's Message Executive Reorganization Order No. 33 By Governor Kathleen Sebelius January 12, 2005

As part of the HealthyKansas initiative to contain costs and reform the health care system, and in my continuing effort to streamline state government and better serve Kansas, I order the reorganization of the state's major health care programs into a new business division within the Department of Administration called the Division of Health Policy and Finance.

The purpose of the reorganization is to align state health care purchasing and data analysis to maximize over \$1.6 billion of the state's purchasing power; coordinate health planning among state agencies; reduce duplication and maximize administrative efficiencies by streamlining currently uncoordinated health care purchasing programs; and to develop a broader state health care infrastructure that continues to be efficient and responsive to consumers and business partners.

This major reorganization clearly demonstrates our continued commitment to streamlining government and our determination to contain runaway health care costs and reform the system. The reorganization will result in the coordination of the state's health care purchasing and planning under the Division of Health Policy and Finance. Medical services including Medicaid, MediKan, and HealthWave will be transferred from the Department of Social and Rehabilitation Services to the Division of Health Policy and Finance. The State Employee Health Plan, already located in the Department of Administration, will also transfer to the Division of Health Policy and Finance. The reorganization also includes a transfer of the administration of the Health Care Data Governing Board from the Kansas Department of Health and Environment to the Health Care Authority.

The Department of Social and Rehabilitation Services will be renamed the Department of Human Services to more accurately reflect its focus. Programs remaining with the Department of Human Services include economic and employment support, child support enforcement, vocational rehabilitation, child welfare, mental health, addiction and community supports and services to persons with physical and developmental disabilities.

The state of Kansas is one of the largest purchasers of health care services in the state, and can play a major role in reforming the health care system. Coordinating state health care purchasing under one administrative structure in the Department of Administration will harness the state's approximately \$1.6 billion in purchasing power to push for health care system reforms and ensure the HealthyKansas initiative is coordinated and sustained.

Executive Reorganization Order No. 33 By Governor Kathleen Sebelius Transmitted January 12, 2005

Section 1. (a) There is hereby established, within the Kansas department of administration, the division of health policy and finance. The head of the division shall be the director of health policy and finance, who shall be appointed by and serve at the pleasure of the governor. - (B) The director shall undertake to cooperate with the federal government on any other federal program providing federal financial assistance and services for medical assistance not inconsistent with this order. The director is not required to develop a state plan for

participation or cooperation in all federal social security act programs relating to medical assistance or other available federal programs that relate to medical assistance.

- (3) The director shall have the power, but is not required, to develop a state plan with regard to medical assistance and services in which the federal government does not participate, within the limits of appropriations therefor.

- (9) All contracts of the division of health policy and finance shall be made in the name of the "director of health policy and finance." In that name, the director may sue and be sued. The grant of authority under this subsection shall not be construed to be a waiver of any rights retained by the state under the 11th amendment to the United States constitution and shall be subject to and shall not supersede the provisions of any appropriations act of this state.
- (10) After consulting with any agency that has responsibility under a memorandum of understanding with the division of health policy and finance for administration of any of the programs of the division, the director shall prepare annually, at the time and in the form directed by the governor, a budget covering the estimated receipts and expenditures of the division of health policy and finance for the coming year.
