

SESSION OF 2006

SUPPLEMENTAL NOTE ON HOUSE BILL NO. 2882

As Amended by House Committee on
Transportation

Brief*

HB 2882, as amended, would define "antique military vehicle" to include a vehicle, regardless of size or weight, which was manufactured for use in any country's military forces and is maintained to represent its military design. A specific exclusion from the definition would be provided for fully tracked vehicles.

Background

The House Committee amended the bill to clarify that fully tracked vehicles could not be included within the definition of antique military vehicles.

A fiscal note from the Budget Division indicated that the introduced version of the bill could slightly increase vehicle registration fees to the extent that antique military vehicles were registered and intended to be operated on highways.
