

The national average for small claims court is \$8,500.00. The small claims courts limit in Kansas is less than half of the national average at \$4,000.00. With today's inflation rates and inflation over the last 50 years since small claims court began, the amount of \$4,000.00 is no longer a just amount for simple cases. We would like to see small claims courts limits increased in Kansas.

Thank you,
